Young Czech missionaries witnessing to local young people

Witnessing and mission work reaching across Europe

Summer witnessing campaigns and missionary activities have been taking place across Eastern and Northern Europe.

In Russia, during a 21-day nationwide witnessing campaign, more than 300 new guests heard introductory Principle lectures with more than 50 progressing to advanced study.

In other countries, young missionaries are building relationships through cultural workshops, cooking, and sports while continuing daily outreach.

Through these sustained efforts, missionaries are seeking to build relationships of trust through which our teachings and True Parents' lives can be shared.
