OPENING PRAYER

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

Here at Cheon Shim Won the Father's Office, the Place like True Mother's very Womb, You Give us new birth every single day in Spirit and in Body, and from the very bottom of our hearts we thank You for this Grace.

Through 1,687 Night of this Cheon Shim Won Vigil Devotion, we have built a Tower of Devotion, and upon that Tower we have Inherited an Absolute Truth and Value with a Pure Heart, with One Cheonshim Heavenly Heart 10,000 Victories. And so, day by day, we are becoming people who turn every trial and every pain into joy and gratitude, so that the trials and pains of this world will become Blessings not at some future day but right here, right now. That is the Door of Cheon Shim Won Devotion You have thrown Wide Open for us.

Now, we believe that when we become one with True Parents and Offer Devotion, we can resolve our

problems ourselves. And now we don't want to stop at simply realizing how much we receive. Heavenly Parent, we Want to Understand First what You Long For, and what Words You Wish to Tell us. We Want to Feel True Parents Heart and Will as our very own.

We Want our prayers to be Prayers through which our True Father in Heaven and all the AGSs can Work freely and fully. Tonight, You have Given us this Time of the Word and of Praise and of Testimony and of Prayer. Please let every Moment of it become a Shield that Protects True Mother Who is Walking a Path of Suffering.

May we Live Out the True Love we have come to Understand, in our families, in society and with every person that we meet so that it becomes a condition of Devotion for True Mother to Return in Glory to Cheonjung Gung as soon as possible.

With this earnest Hope and Longing, I Offer this Prayer in the name of Kim Guy Yon of a BF gratefully Attending Holy Mother Han. Aju

Title: Releasing Han and Liberation

True Parents Words: There's only one set of True Parents on earth and in the SW. There cannot be two of them. They are absolute, unique and eternal. There is only One as the Unique Center of the Universe. Everything is Connected to that Place, which is True Parents, and you need AFALAO.

At the Center of our activities, our True Parents are always together with us. On this Path we have 3

Privileges we have Received. This CheonBo Providence and this Cheon Shim Won Providence, only True Parents have Opened It, the Privilege only True Parents can Open and only for BFs today.

Through the September and October activities, we were able to do the WSs in (Bangkok, Manila) Malaysia, Philippines and Thailand. The Asia Pacific Region has different culture, different languages and difficult barriers. And with materialism we are able to see our youth in despair.

Asia Pacific is a region carrying centuries of 'han'. War and illness and poverty have settled like dust across generations. And the wounds still have to be seen and are asking to be healed. We have a lot of Words and Contents for the liberation and also Receive a lot of Grace. However, in reality how deeply have we Settled this in our own minds and bodies. We sometimes couldn't fully understand.

When we go into the deeper realms of the SW of hell, there is more and more deep resentment. We are able to see what spirits are inside of us, and the dark spirits with resentment will say, 'I will never let you go'. This kind of deeply imbedded spirit is in our minds and bodies working for a lot of negative things to happen to us, (negative things and blocks to the Will of Heaven through us)

Large numbers of spirits enter each person. And this CheonBo Works are for Heavenly Parent to remove them and beams of Light Guide them upward from hell (to the Workshop), and these kinds of Works are being done in our bodies. We have spiritual layers. These spirits are behind 99% of our illnesses. And for us to become figures of the Providence, we have been chosen first to be a transforming point. And that is our responsibility.

So, we need to remember, remember the past, understand the life of our ancestors. And Centering ourselves, we should determine ourself not to repeat such hurt. And also, with a heart of resolve and desperation, let us never pass this 'han' down to our descendants, but with resolution to make it end with our generation.

(Let this 'han' from the history, let this deep, deep layer of resentments end with our generation)

When we resonate with True Mother's Heart, the Door is Waiting for us. The Door is Wide Open. If everyone is able to open up their hearts, they will be able to receive and resolve and sort out all of the history of sins. And that Era has been Opened by Heavenly Parent and True Parents of HEH.

And this 1,687th Cheon Shim Won, we deeply Realize once again how much we have been Receiving. We only have 2 to 3 hours of difference in the Asia Pacific Region, and a lot of our members are experiencing Substantial Grace.

And as far as the activities in Malaysia (and Thailand), Malaysia is an Islamic culture, but also with other different cultures. And centering on our Chinese/Malaysian members, we are building a church foundation. And last September 12th to 13th, we did a HJ CheonBo Special Event in Guadalupe, Malaysia of an Asia Pacific Tour. This is the very first Workshop in 2026 amidst True Mother's Detention Suffering.

In Malaysia of the Islamic Sphere, we have so much persecution, and being so careful, we were able to settle down. A lot of our leaders were able to participate in this Workshop, and in the Chanyang Yoksa and the CY Offering Ceremonies, Special Lecture and Special Ansu, this type of Contents were there.

Especially in Malaysia, we have a lot of members with deep interest and understanding of the ancestor liberation and Blessing. And this is a Place where they invite members and guests. And centering on the youth who participated in the Yeongseong Workshop in Korea, they are Offering Calling Out Prayers for the Release of HMH. And especially in this Malaysia, we were able to appoint a Cheon Shim Won Coordinator who prepares and coordinates every morning and every night.

And they are leading the Intensive Prayers in Malaysia, and True Parents have Said:

When you face a difficult situation, you must work it out through prayer. Prayer is forming a relationship centered on God's Standard of Heart. If you pray about a problem with a heart that is truly concerned for the nation and concerned for God, then God will without fail Show you the Before and After (from God's Perspective)

There are countless such Works. So, the Islamic Sphere is being witnessed to, and being able to see them grow, how difficult it is. However, even in Korea where we have (supposed to have) religious freedom, we have such persecution. In the Islamic Sphere, we really cannot say there is religious freedom, but in Malaysia, the Cheon Shim Won Leader participated in this GWs, and Malaysia leader was able to have the Cheonshim drum and rod Bestowed by President Lee Gi-seong.

This was the very first Cheonshim drum Bestowed upon the nation of the Asia Pacific. And there were several questions and mysterious things within the hearts of our members and brothers and sisters had a time for internal guidance with all of the leaders gathered. We also had the youth and the YSP leaders as they come to the Cheon Shim Won in Korea... There is also a sister who participated in the Ansu in Korea and they will come here to offer special Ansu and to help out. Here is a reflection:

'During the 210-fold Calling Out Prayer for True Mother, I thought of Jesus on the cross and True Father's court hearings, and it turned my hesitation about what the neighbors would think, turned into Gratitude (for the power of praying together). United with members from around the world, she prayed for the Innocent Release of True Mother, and her tears continued long after the prayer ended. applause

We then went to the central region of the Philippines which is Cebu, which is a beautiful island. Once you see it you want to stay, and once you stay you want to come back, as place where the sea and the sun and the faith meet up. It is a Catholic nation. 500 years ago (a priest/missionary) came and anchored down his boat on the Cebu Region and 800 of the local people were Baptized. They accepted the cross and the Philippines grew into a Catholic nation with more than 360,000 students enrolled in higher education as central messiahs. at 137 higher institutions.

It is the most developing place next to Manilla. And a lot of our Korean people, sharing the Words to the younger youth, and 30 of the youth participated and were able to start their Root of Faith through the Cheon Shim Won Providence. In the Philippines, last July, we had a 7-day Spirituality Workshop for the leaders and IPLC also in Manilla. And through this also around 60 of our Philippine leaders were able to participate for a greater level of spirituality.

And I ask PL to bestow the Cheonshim Rod and giving this report to PL, we were able to give ten out of 20 registrants, and we had the special award for the HJ bone for the leaders. This HJ bone and HJ Rod is not just a 20cm stick, but when you actually give and share the Words and Pray holding onto the HJ bone, the HJ rod, I believe that when you Pray with such Conviction of how PL has Blessed it, it is like the rod of iron of Moses.

And most of the leaders came here are not from the Cebu Region but from all parts of the country. And there's a leader who's older who received the HJ bone and later when she was going back and we were

going together in the airport, and I saw how he was holding onto the HJ bone the whole way with the conviction of what he would be able to do now with it. I saw those things. applause for great spiritual things to happen.

In Korea, there's the international 3-Day CheonBo Cheonshim Resonance Workshop, and there were a lot of testimonies. Because of Catholic background, they had the spiritual depth, but circumstances did not allow others to come, but with the passionate and fiery and energetic atmosphere, I felt there was not difference among us.

And we did the Special Ansu, even only ten registered, along the way more were invited... Reflection: 'Leaders are united to give strength to Heavenly Parent and united in the hope believing in building the Heaven Realm on earth together'

another: When I let go of the hurt, my heart was released and peace came to me.

another: Awakening to the SW and understanding it more deeply led to the liberation of my heart.

I mentioned that I was living in the countryside, but this was the first event like this, and when I was working 7 or 8 years in the Branch, it was so difficult to prepare for the Event. It was not easy to tune into the spiritual atmosphere. But Leo Angelo, the District Leader, the Vice President and also the Director came to Manila and participated.

When the top leaders Offered Prayer and Devotion, we were able to make such Grace-filled Event. applause for the Philippino leaders.

Our Branch HQ is located in Thailand, and it is the family tradition of respect in Thailand through generations from the very beautiful Buddhist Tradition in this country. And we have a beautiful Training Center that True Parents's Prepared. It has the HQ of the Asia Pacific Branch.

This year from May, we were able to do a 21-day Spiritual Workshop. And centering on the Thailand members, we also did Couples' Seminars and such. Some place we don't have enough rice and it's very chilly, but here it is always summer and these are pictures of the amenities and the really beautiful Garden and trees that I love to be able to share.

In 2020, we were able to Name 6 Trees and have them for a Place of Meditation, and 6 domes are set up, where after Covid, it was designated as a city-wide space for secular-world guests were able to stay. We were able to offer this well. And here is the Tree of Love (a Plaque is there on the Tree with Mother's Image and a Message) Why don't we Resonate with Mother's Heart here.

There is a Holy Ground here, and in the morning I would go up and see the beautiful scenery... and also at 5pm before dinner, I would come up here and see such a beautiful sunset. We are also able to see a beautiful sky at night with so many stars.

True Parents'S WORDS: 'You really need to Long For True Parents. When you Long For True Parents, you will Meet Them in Dreams. The person who has such Experiences can Substantially Share and Live Together with God.'

There are a lot of national parks and resort areas. If you want to go to an important country to experience a different culture, please come to Thailand, and we will really (welcome you).

And here, there was a flood, and heavy rain. And that is why we are able to do the Workshop in the HQ. And whenever we do the Ancestor Liberation and Liberation of Central Resentment Spirits, and through the Chanyang Yeoksa, we hope to resolve all the sadness in the people's hearts, and thinking of True Mother's Cosmic Path of the Cross, we Want to Live for True Mother, HMH.

report of Naomi Takata: My pain in my right shoulder was relieved when she felt a spirit leaving her body, and with grateful prayer, she resolved to do 120 bows of devotion every day and move forward with True Mother / True Parents.

In fact, this sister had lung cancer and offered prayers and participated and when going back to her island she has a big surgery scheduled... applause of encouragement

Everyone, William Shakespeare's Hamlet, when you look at that saying, 'To be or not to be, that is the question.'

But there was a tragedy that began before Hamnet was a child. We really do not know from a hundred

years ago, but from the story, the child passed away... and there a movie 'Hamnet' and coming from the Workshop, we saw this movie, and what I felt was an ache in my heart. (What does a father do with his grief? And what also does a mother do with her sorrow)

And Hamlet and Hamnet, that name, the Chinese characters are different. And in this movie from a novel, a daughter named Suna or Susanna, and Hamnet is her twin brother and the Judith and Hamnet stories continue. The 11-year-old boy went to the spirit world, and the Hamnet would say, 'When the grim reaper will come, you need to live, and I will go to the spirit world instead of you.' (There is a scene in the movie like that)

And losing a son might be a scene that some would just pass over, but can you continue working as before even if your son died.

(another line is 'Success filled London---and emptied the table at home... an empty bed -this from a writer working as a business man and he lost his son, and when he went back to London, it was the scene of the same loss in a different language place... and "When the work is done, then we will live." and "unspoken grief can become a form of violence' ---with severed relationship... and "Love that is never expressed may arrive as coldness" that is amplified with the years...)

There are also friendships that can grow even stronger...

But when the name 'Hamlet' was heard by a living audience, the wife misunderstood, thinking, 'He is making money by exploiting my son's name,' so she went to London and confronted her husband (explained the idea that 'Onstage, one name holds both life and death... He is both alive and dead... The young prince lives. The father appears as a ghost.

There is devotion a father can show to his child, it would probably be to suffer in their place and even go to death on their behalf. But when she looked at the stage, she saw two people whose name was Hamlet, both the young Hamlet who is alive and the father who is both alive and dead.

Very interesting, right? Are you curious to know more? I really hope that you can watch the movie or read the novel. I was trying to convey this message in a short time. I'd like to ask this question: How can we release the indelible grief, injustice and resentment left by a death caused by another? That is 'han' the

resentment. It is through 'Haywan' 'liberation. What must end with me? What must begin with me?

(The time is out of joint) and the question, 'Why must his inherited burden become mine?' What of the pain that was never mourned? Take these questions into your life.

So, in the Cheon Shim Won Special Vigil Devotion whenever we participated in it, the things we do with Cheonshimwon... as prayer becomes Prayer...

Does Prayer change Heaven or does Prayer change me --- Prayer is changing ourselves. After Prayer, who have I become? But Devotion is not a transaction. However, seeing ourselves changed through prayers, we can see the wisdom of the saying.

We as the central figures of the Providence of Restoration, we need to know ourselves in this Era. And through our thought, let Heaven be the Central Figure of our current reflection.

We, as the central figures of the Providence of Restoration, are we really living our true lives? (To Be or Not to Be) Am I not merely surviving but becoming present enough to 'be' and 'to love'.

Am I truly living my own life? And what can the central figure within do? It is through True Mother's Words: 'Do not pray for ourselves, but to pray for the community, your church of families and (with love for the nation).

With the desperate Words of True Mother, whenever we go to the Tree of Love, we are asked this question... We who are living in every era must have such question. We cannot live here forever, but we need to live and love our neighbors, live today, break the chain with Love. Return Home. Become one who can embrace (others with True Love)

Our ancestors pass to us both Blessing and pain... We need to sever the Inheritance of Pain and give only blessing...

PRAYER: Let Devotion change me

INHERITANCE: End the wound, carry the Blessing

HOME: Return through Love

Among the Words of True Mother to us, She Said: Something Good is Coming. Mother Said, 'Something very Good is Coming.'

With that I will end my presentation. TYVM

Then they sing the Korean

(and on the streets with Holy Mother Han's Picture and Autobiography Book)

And we hear Mother Speak: Thank you. Let us go all the way to the end.

Mother, TY, We love You.

When we think about Mother, we think of the the Great Love of Heavenly Parent.

In 2024, when my mother passed away, and when I reflect upon it, there's nothing that I actually did for my mother. Fortunately, thinking of True Mother's Great Love and realizing that I really didn't do anything for my mother, I have time to really repent and ask for forgiveness. But True Mother has Given these Words:

True Parents's Words: 'Women have a precious nature that God granted to women alone, and an affection unique to women. As they conceive and raise children, they have the important role of guiding the family. Through the self sacrifice of caring for and nurturing the fruit of Love, women continue the family lineage.

A mother's outward labors are important too, but the maternal role of rightly nurturing a child's heart and cultivating their character beginning with prenatal care is Sublime.'

True Parents have given us these precious Words. Continued in the cultural world of the future, the Sublime Role of women will be recognized as absolute, not only within the family but in the society, nation and world. The Sublime Role of a mother is on an historic scale conceiving Love by giving birth, raising and guiding the future of the family and the entire world.

When we see a lot of our mothers gathered from internationally and participating together in the Cheon

Shim Won Vigil Devotion, with big gratitude and respect and big, great love, I want to share these things to you.

If it wasn't for Mother, how can we be freely in this Place and talk and be and do anything?

We were not able to go to the hospital to visit my mother because she was the wife of a pastor and I was born in the church through a (church helper, midwife?)... I watched my wife give birth 4 times. Even after the birth, even after going through labor, she was able to smile widely when looking at her child. Where does this kind of strength come from?

My youngest is 16 years apart from my youngest child, and he was seeing my wife giving birth to the youngest child (who was born when my wife was at 40 years old, which concerned me) but seeing the baby, (my wife is much shorter than I am and she is on her tippy toes whenever embracing me, and we embraced with me crouching down) But how can such a small body have such a huge ocean of love.

But thinking about True Mother, how Great and Big and Wide is the Love of True Mother. When we Reflect upon that, this Path that True Mother is going, we really need to Repent and Give our Full Support to True Mother, that is what I thought. This is the next 21-Day Workshop VIDEO with the Title: Mother's Love

There is the Livingston House and we are at the HJ CheonBo Heaven and Earth TC... taking notes... seeing Tong Il Moo Do scenes... prayer and devotion and chanting... the drum is all torn from being struck so strongly for a long time...

testimonies: (same as before)

We did the 21-Day UK Workshop in September... The 1st, 2nd and 3rd generations participated, in total 81... We offered 24-hour Prayer for True Mother and other Devotions and Lectures and Consultations. From the Main HQ, Director Chung Jun Ah and Director Dok Su, Director Juon, and Assistant Manager Hyung Yu son, and also the Secretary General Ape Jun gi, even thought it was a difficult Session, they were able to give a lot of Grace. Also, all the lecturers... applause

Team Leader Sung ja gave a lecture on the Paintings and what it means to risk your life in Painting and

how much Effort Invested for the Holy Paintings. And here's a reflection:

'I'm Olivia. I'm 18, from the UK... I felt very Spiritual during the 24-hour Devotion. I never did anything like that before. The most bows I've ever done is like 300 or something in one go. So, doing 1,000 in one day, you could hear the question, 'Wow, how am I going to do that?'

There was a lot of repetition, the Chanyang and then Chanting and then Prayer, and it gets really intense. And after the bows my knees hurt and my legs were really sore. Standing up from the floor was really hard at some point.

At first, I had a lot of energy and I was really putting everything into it. And then, after a few hours, I started feeling quite tired. There was no sleep that night. But I started to feel that sense of Resonance.

But the prayers were floating away. I couldn't really think of ways to pray. I couldn't think of things to say. I was kind of stuck at some point when it came to prayer. But toward the evening when there was just a few hours left, I really gave it my all and pushed through that time, and I felt that Resonance there with everyone and with Heavenly Parent. I really Felt that Spirit World was in the Room there with us and Working through us at that moment.

Especially one of the Resonance Prayers, I couldn't fell my feet at that moment. I Felt like I was being Lifted Up with everybody else, and I kept Chanting the same Words over and over, 'We are with You, Mother.' There was nothing else I had to say.

Ya I felt actually Lifted up, and like the SW was Celebrating our Purple Jackets, and Embracing me and Helping me through that.

Of course, leaving the Workshop and trying to get back into every day life, I Want to do my best to include the Resonance Prayers and join the Korean Cheon Shim Won Vigil more. I Want to make a schedule of Hoon Dok Hae in the morning and Prayers before bed as well. I Want to really Put Heavenly Parent at the Center of my life and really Feel my ancestors working through me, and Fell Jesus in my life, spreading that Feeling to everyone else in my family and community who maybe didn't get a chance to go to this Workshop. Hopefully, they can feel the same Resonance I Felt when I come to church or when I share with them about it.

We had the 24-hour Prayer similar to how it is done here in the Main HQ, but when we do it we have a single Session for 2 hours and then did 8 of those Sessons up until 24 hours.

Yu In Sung's Testimony: A year and a half passes and I am doing my mission Work in the UK, and the question, 'Why has Heaven sent me here?' And the 24-hour Devotion time was when I began to find an Answer. I Offered the 1,000 bows alongside the Branch President. Although he is not British, he Loves the UK more than anyone Give It his utmost Devotion. I was deeply Moved.

I Realized that it was not so much that I love the UK because Heaven need me but It is to become a person who loves the UK to the end, no matter the circumstances.

Also, I thought of True Mother throughout the 24 hours, and I Realized that Thinking about Her every minute and every second was not difficult in itself. It was mostly that I had not been living that way until now. I Shared many Tears.

I was especially moved to see 3 generations of members Offering Devotion together to the end, for Mother's Good Health and Long Life and Her Well-Being and Release. Through them I could feel an unchanging Love for Heaven.

Through this Devotion I Took to Heart the Original Resolve I had as a missionary, Resolve to Love the UK that Heavenly Parent Loves to the very end and the daughter who Offers my Utmost Devotion. This was my Resolve.

This is the Cheon Shim Won in the UK. And we Offered sincere Devotion. If you look at the video that this is the Place where True Mother was. She Went up the Stairs, it was the Livingston House, which is like our TC. Another testimony of a 2nd generation family:

'During the Vigil Devotion I began to find answers to questions I had for a lont time in the past. I studied classical singing in Germany for 4 years, but that time was one hardship after another. It was a place I had never wanted to go to in the past, so I kept asking Heavenly Parent why. Even a year after graduating I had not found the answer.

Then one morning I prayed, 'I Want to know more about HyoJN. Somehow, I Feel Connected to him.' Surprisingly, amazingly, that very evening, there was a Lecture about HyoJN.

As I listened to the stories about HyoJN and East Germany, I began to wonder if the reason I was there had been Love. Also, during the 24-hour Devotion and Vigil Prayer, I also felt a strong calling deep inside my heart to bring Faith to come through music.

Listening to the Lectures about HyoJN's Life, I thought that perhaps the musical talent I received was not so much for performing onstage, but for Sharing Heaven's Love and Light with others. Germany was once a place I never wanted to return to, but now I have a Desire to go back there some day and share Heaven's Love through my singing.

Through this Workshop I Realized that even the painful experiences of the past, which I did not understand at the time could take on new meaning when viewed from Heaven's Perspective. From now on, (I will look to take on this Perspective)

This trainee, a lot of times, during the Vigil Prayers, I thought her voice wasn't loud enough, but during a time when she went to the hospital, she prayed, 'Heavenly Parent, please let my voice be loud for the Vigils.' And during the Resonance Prayers, her singing was great. applause for her

Testimony:

Name :...

1st gen sister:

'The 24-hour Devotion was one of the most meaningful Experiences. I Experienced a deep Connection in Heart with True Mother. I felt both the Exhaustion of Her Body and Her Great Overwhelming Love for her children. I Felt that this Workshop itself was an Expression of True Mother's Love, as She Sent the beautiful pure water members to the UK.

The 24-hour Devotion was like a short but powerful Master Class in Spirituality. There were difficult moments when I faced my own limitations, but I would reflect myself with repentence, and I learned to

Invest myself more sincerely and Appreciate the Heart of Filial Love together with my pure water brothers and sisters.

Each Bow would Offer Love for Heavenly Parent and True Parents, and with the Hope of bringing Strength to True Mother, it Felt like every single Bow was an Expression of Heart. The HD Candles melted to the shape of beautiful pure white flowers. Looking at them, I was reminded of the song Edelweiss which True Mother often used to Sing.

With a deep Gratitude, I Wish to Move Forward with the firm Determination to Fulfill my Mission with Cheonshim and a Heart of Filial Devotion toward Heavenly Parent and True Parents. TY, I Love You.

This sister was in a public position taking care of the Sunday School.

Missionary Kim Juil: Because of a hectic schedule, we were participating for 7 days, not the full 21 days, but after the Event, there is a profound reflection I want to share with you. For about 5 months in the UK, I have been Sharing the Word with someone I was witnessing to. And I Offered Devotin for them.

However, I was afraid to invite this person to sign a membership application. I was not able to take that step. Then, I was at the Workshop and entered the Cheon Shim Won for the first time in a long while, and tears began to fall with Determination to Offer my utmost Devotion during this short time. I used even my break times to pray earnestly for True Mother and the person I was witnessing to.

In particular, I came to Feel that what True Mother Hopes for is not simply for us to work hard, but to raise children who generally know to Attend Heavenly Parent and True Parents. After returning to my mission field, I also participated in the Special 24-hour Devotion for True Mother, wherever and whenever I could.

After the Workshop, because we are sharing participation in the 24-hour Devotion, surprisingly after he participated, all the members united in heart and persuaded the person to sign the membership application. Feeling that this was Heaven's Guidance, I let go of my fear and made the Decision to take that Step.

That day, I presented True Parents to that person and invited him to sign the membership application. And

the person responded, 'I Want to help True Parents, and joyfully filled out the application. applause

Through this spirituality Workshop, even though I was held back by fear, but Heaven was Working. So, this 24-hour Devotion led to a tangible fruit of Witnessing. I was able to Experience the Power of Prayer and the cooperation of the SW. I'm deeply grateful to True Mother for Allowing us to have this precious Foundation upon which we are to Offer our Devotion.

A lot of youth participated in this Devotion. President Lee Gi-seong made a lot of posters and sent them out. In the last video, there was a 2nd generation dancing bigger than life. He's the 2nd gen President Okdan in the UK. I think he has a really great name, Okan, meaning 'the Root of Fortune'. Because of him being the President, I think we have a lot of 'Grace... applause

Next, let's go to Colla Mattia Roma Italy... It's such a beautiful country. I would be great if a lot of our people from the Catholic Church were able to Attend True Parents... This is the VIDEO we prepared: Let's watch it all together.

Three of our 1st generation mothers volunteered as staff for the kitchen. I was so grateful and everyone loves eating their food with the motherly love. And we helped them to participate in the Chanyang yeoksa. And they Received the Vigil Prayers and the Special Ansu.

And this is the Main HQ, but during this 40-day period, whenever we are conducting the WSs in the Branches, there's a limitation of the facilities and the staff. You can see this schedule. And the yellow line is our devotion that we did twice in a week, and President Lee Offered sincere Devotion, breaking his body down, but Offering Prayers and Gratitude applause

Bergamo Roma is the capitol of Italy, but we don't have a lot of members there, and we see that because of financial difficulty. However, in Switzerland at the border of France, there's a place, Millano, that we know well, and right next to that is a Place where we have a lot of members.

It takes 5... It was so expensive going back and forth, but we really wanted to meet our brothers and sisters. Here in Roma, we don't really have room, but if we go there to Bergamo, we can meet a lot of members. So, we actually rented two 9-seater vans, putting up 5 million won and driving for 7 hours, waking up at 5am and departing at 5:30am, saying, 'Are you ready?' and they would say loudly, 'Yeah I'm ready. Let's go! And that's how we went.

We were driving 7 hours straight in this van... and you may know of the Mercedez Benz. (I really like that car) This van was so comfortable and I thought 7 hours will be so easy and we took the highway and just went. In the plane when you go above the turbulence, it's very stable, and that's how this ride was. We drove in rotation... and our members in Bergamo were so happy to see us saying, 'Welcome here, Welcome, Welcome, Welcome to Bergamo ' and the band played a song, and we Offered Praise together, did Chanyang Yeoksa together and Offered Devotion together. It was such a great grace-filled time.

Later, we went for pizza, that as you know can be on the expensive side, but they introduced a pizza buffet where it's only 12 dollars. They would deliver one and if you say yes again they will deliver

another. So, we ate and ate pizza. (pizza devotion... we were kidding around)

And we went back 7 hours, and I said the two people next to me should never be drowsy because you are responsible for waking me up... but I really couldn't wake them up because their schedule was so hectic and packed, and they were in deep. I felt that they might meet True Mother and True Father in their dreams and also the SW in that.

I was a little concerned because of the long distance, with because of the Devotion at home and at Main HQ, we were Guided safely back.

This is the brochure for our 24-hour Devotion and in the future we will continue utmost Devotion. The things we are doing are intangible. We may think, 'How can we transform this world like this, but Heavenly Parent has Created this world with the Invisible, Intangible and Incorporeal Love.

To all of our brothers and sisters and leaders and staff who participated in this Heavenly EUME... applause

And on November 2, I will go to Turkey, and from Turkey we will go to Austria 7-Day Workshop, and next year we have a 3-Day Resonance Prayer Workshop and Workshop on Family Relationship. I'm truly Grateful for Prayer and any Support, and for Mother's Absolute Release and Acquittal, TYVM

BREAK and BUSKING

Hoon Dok Hae

When you face a difficult problem, work it out through prayer of faith. Why do we pray? Prayer is building relationships Centered on God's Standard of Heart. When you bring a problem before God and Pray with a heart that truly cares for the nation and truly cares for God, God will surely Show you a Whole Picture, what comes before and what lies ahead. Words like this happen again and again.

Rather than reaching/looking outward, we must look for the Path of uniting our minds and searching deep within. This is what Christianity today calls the life of prayer. It is the prayer where you set a goal and try to make it come true. Precious is the Prayer where you touch God's own Thoughts, felt in your heart the Words of God Who Longs to Speak and Say (together), 'I Will let this out.' With that Prayer, a Joy will come to you. That very state is the State of God's Thought of God before the Creation of the world.

If you can come to Stand in that State, where the Will of God is Saying, 'This is how it is,' then, you are Standing in the very Position God was in when God Created Heaven and earth and all things. It is the Position from which God Created all things through the Word. It is from such a state that you must Proclaim the Word. Then, people will surely Want to Come and Meet The Word.

Now, when you become One with True Parents, miracles happen. When you pray and Offer Devotion, you can resolve your problems yourselves. The Spiritual Foundation has already been Settled and Prepared. Now, it is the time when the SW moves on its own. Through 21 years built on the Foundation of Devotion, an Automatic System has been Created.

True Father went to the SW and has Completely set in order the systems of Heaven and earth. Aju.

HJ PRAISE - Cheonshim Choir - 'I Will Love You With My Life'

PRESIDENT LEE GI-SEONG'S MESSAGE

1,687th Cheon Shim Won marks the 402nd day of True Mother's Trial... I'm so grateful we are able to have this time of Devotion Internationally with about 40,000 people gathered.

I'm so grateful for all the efforts... and the small church in Yeongju 888th Vigil... We feel your ceaseless Devotion...

Shinto Pastor is such a person. Yuinseong Missionary's father is pastor of this church of the 888th Vigil... and not just his time but every time, unending Devotion... They are in a rural area, but they are doing their best and to all of our churches on this lonely path, TYSM... I appreciate the churches that always know the numbers to report...

Shimnomosoki Church 700th Vigil... Atsuki Otsioki sent the Message... Oct 29th is this 700th Devotion... After the Dissolution Order on March 4th, at the 7th month exactly, we were able to offer service at a new church... We were able to offer our first Service, right after 60 years, since we established the church and during the 7 month period, with the heart of not losing the devotion of the 60 years' tradition, we would go to the Holy Grounds and read the Words, and even if we feel empty, through True Mother's Words and the Cheon Shim Won Vigil Devotion, we could rest our hearts.

True Father Said for the establishment of the church, we will use this for a new start and this Pastor will make a new way going forward applause

N American Cheon Shim Won, Manilla, Austria, Philippines 666 place connected...

By the world centered on Cheon Shim Won, greater things can happen. At this time the Continental Director of the Asia Pacific, he will depart tomorrow night but every time he will come to this Cheon Shim Won Devotion and with the Branch Presidents united, surely great works will happen. And before the Report, the greatest Words is that there is only One True Parents of the SW and the Physical World.

They are the Center to which you need AFAL and AO... With that kind of mindset, we should think, if all of our words and actions are questioning, is my speaking and acting and heart centering on Them not the critiques of the church, not always complaining about the church and going with the public opinion critiques, you need to ask Heaven if you are or not going by AFAL and AO and are we risking our life for only the Way of True Parents. Only by that (not leaving the Words and Direction of HMH True Parents is staying at Their Side and protective of Them) only then is there absolute life, Love and Lineage will be severed.

If we used these Words of Cheonseong gyeong as our life, we can open the way (buttoned up properly) by AFAL and AO to the Center, One and only Center of HMH True Parents) We need to live risking our life after that Center (Substantial Subject Partner, the chosen people BFs absolutely being the substantial

object partner).

Only Centered on True Parents is there True Love, True Life and True Lineage. However we go a different way of Their Word and Direction, it severed us from TLTL and TL. This is the Words of Cheonseong gyeong, as it is with our life choices and actions, great Blessing can be given to us (to also share in peace and happiness with others)

In Malaysia, the Coordinator there is the person offering sincere Devotion every night, We are able to see Kenquioki(?) become a (great person for Providence) ever since he was appointed. And they requested the Cheonshim drum and the Cheonshim bone. And trusting the Cheonshim President, I also had a time to Bestow it. You can see (in the photo) the drum is torn apart, from fervently beating it while Offering Devotion. I truly believe this appearance will bring Heaven's Authority and Works upon Malaysia.

The person who was specially educated on the ansu is in Malaysia. Centering on this Main HQ in Malaysia and moving forward with Spirit and Truth, I truly believe there will be a great Revival and great Works happening in Malaysia.

And also in Cebu in the Philippines, they did the 7-day Workshop, and that was introduced well there. If they move forward with Spirit and Truth, we believe in and hope for Great Revival and growth. We really hope for such prayers.

Pac Sung Training Center in Thailand, if you have an opportunity to go to Thailand, please stay there and Offer Prayer and Devotion there. That's what I hope.

The International trainees sang the song, 'Ten Thousand Reasons' and Offered Praise to HMH. Any person, to look at them, we can Feel they are really Offering the earnest Praise. She is really doing all her best, and looking at her sincere Praise, I really believe Heaven is moved by her sincere Prayers.

Our Branch President Moon Im pyo is really working hard and gave the Report on his activities. Our Branch President was here during the GWs. They did really well because of the GWs. And our Branch President treated all of the Academy... applause for him...

In fact, because our young people are hungry, when I was in the military, we would do a 12-hour shift,

and at night after 10pm, I would really feel so hungry and we would eat Ramen. Also I feel that our Yeongseong Academy 48 trainees might be hungry at night. But they are offering prayer and Devotion that forgets hunger. I truly feel Heaven can Work through such Devotions.

In England and Italy, they shared a report about the spirituality Workshop. We saw the videos as well. And we were introduced to several programs. In order to craft the devotion prayers in the field, they are working so hard... doing the 24-hour devotion prayers solely for True Mother, doing those eight Sessions of Programs. They were all drenched with sweat and tears. The youth tearing up even when just thinking of True Mother. And we could see them absolutely becoming one with True Mother.

If all of the members in Europe would move forward with Spirit and Truth and absolute Devotion of Cheon Shim Won, truly united with it, I truly know that Great Heavenly Works will happen in Europe. There's so many wars in Europe currently.

So, when we were young we also saw the French War. Because they strive for (intellectual/material/power self gains), there is always a lot of wars. The Orthodox Church and the New Church and the Protestants, there's so much conflict. (They don't have a Central Understanding of God to submit to and unite around beyond their other concerns... Mother Said they don't know the Essence of God and Jesus). And we see the conflicts manifesting into war or demonstrations with no end.

With conflict within intellect, there's no end. Do you feel that, if you have a debate it will be argument so that you might not want to meet that person anymore (devaluing the person by your own mind's idea different from theirs) (True Father Said that the religion ideology that devalues another religion or ideology wanting to serve the same God, loses its own value).

All of the people will take sides of divide based on who wins over others by intellect. So, we need to go from intellect to spirituality. But what is spirituality? Spirituality is True Love. Those were the Words Given to us. Aju. We are to live for the sake of others by love not intellect. If you don't have love, no matter how much knowledge and intellect you have, your spirit self is completely empty without Love. (True Love has a True Love Center and Source).

Even if you see someone else as the most foolish person, if you have True Love, everyone will be Embraced with that Blanket of True Love. And people will be gravitated toward you. In that Sense, when

a lot of our people go through spiritual experiences, they can realize that True Love is the most valuable and successful life to have.

The peace of Europe will only be through True Love. And that Realization can be Experienced through the Spirituality Workshop. So, what is Spirituality? It is True Love. What is Spirit? It is True Love. These are the Words Given to us. And if we have True Love, we'll be able to Resonate with plants, with animals, with rocks and with the entire Cosmos, also with the people in the past who died and went to the SW.

If you really love Jesus deeply, there are martyrs who risked their lives. And if you have that kind of Resonance, Jesus' Heart will Enter those who truly Love True Father. True Father's Heart will Resonate with that person.

If you really Offer 24-hour Devotions and Bowing Devotions while you only think about Holy Mother Han True Mother the whole time, Tears will automatically stream down your face. And because you resonate with the Shimjeong Heart of True Mother, as you see, one of the brothers said, 'Please Return Home. Please Return Home. We really Miss You.' He had so many things to say, but he was able to elevate to the state where he could not hold back the tears.

Through this 24-hour Devotion, how can we be in a State with Deep Resonance. We were able to see them absolutely united. If all of our brothers and sisters are united in such Shimjeong and Offer Devotion, for them to have this spiritual Experience and they go out and witness, I truly believe that Europe will have a great Revival, a rapid Revival.

Reverend Moon Im pyo, his atmosphere is completely difference than in the beginning. So, he's really risking his life in his activities. And he wet to Moscow and did the Spirituality Workshop. And he also went to the Middle East and several countries. applause (for all of the Branch Presidents to be absolutely victorious in their endeavors). (Yes, and safe please)

True Mother truly Loves our Branch Presidents. In 2018, on October 11th, you know what Day it was, right? It is the Day that True Mother Proclaimed Cheon Shim Won after two years True Mother Giving Words at CheonJeong Gung and Dispatching the Branch Leaders. Mother Prepared neckties for the Branch Presidents for two hours. A turtle, a bird and flowers were on the necktie.

AND TRUE MOTHER DIRECTLY SAID THESE WORDS:

'You are directly Connected to CP and you need to never stray from your Original Position. The SW and the PW are Moving with One System. In the past, we didn't have the clear Sense of our Center. That's the reason we have this split in our nation.

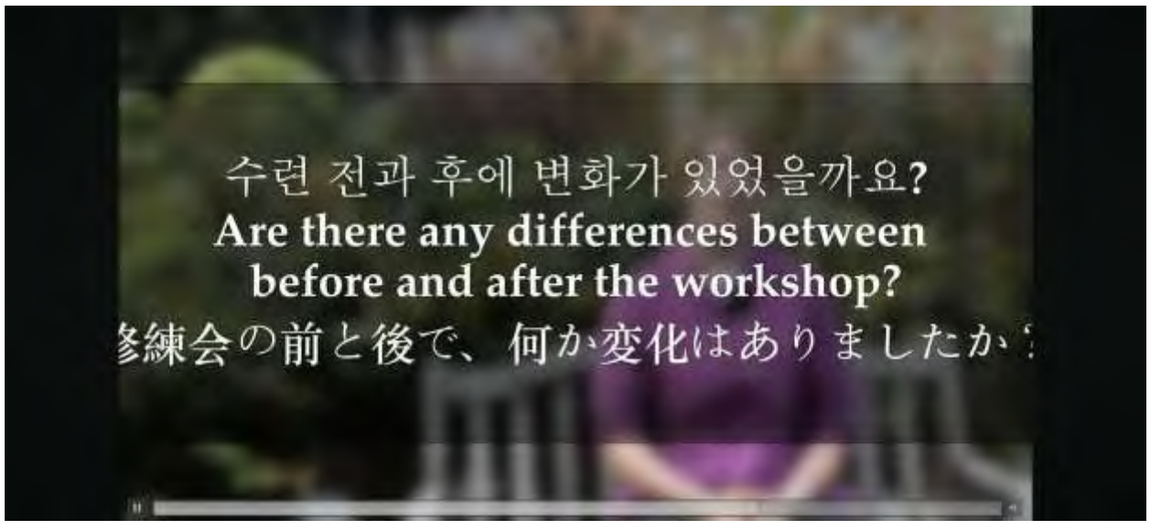
You need to Resolve this. You Need to Become the Model of Devotion and Faith. You Need to Understand that you have this Important Role. You Need to Pass Down the Fire of Spirituality in the Continent that Spirituality should Explosively Happen in the Continents.

Heaven has Prepared the Righteous People. 95% was Prepared by Heaven. You Need to Fulfill the Fruit with a Full 5% Responsibility."

When True Mother Dispatch Branch President Satchua to the West Africa Branch President, he is a person who speaks English fluently, but he doesn't speak French at all. But surprisingly, amazingly, someone who speaks French and English, she was resting or dormant member, but TRUE FATAHER APPEARED to her in her dream AND SAID:

'You need to work and support this Branch President. Because of her Revelation from True Father, she helped in translation and interpretation. That's how True Father is earnestly Working and Desperately Working.' (True Father's Words in a dormant sister's dream)

True Mother's Words continue: 'You Need to Live a Life Fulfilling Present, Past and Future. You Need to Realize that Chung Pyung has the very Important Mission and that every one of you, you can Save the Continent.



If you're one degree off, it can be shaken. If you absolutely become One with True Mother, there's nothing the Branch Presidents can't do. You Need to Arm Yourself Spiritually. You Need to Offer Devotion Spiritually. It is a problem if you are spiritually attacked.

You Need to (continually) think about True Mother. You should not have any self-centered thought. You Need to think about True Mother Who is the Only Begotten Daughter. If you become one with True Mother, everything is Okay.

You Need to Share the Love, Grace and Blessing of the HJ Heaven and Earth TC. It is to revive the Spirit.

You Need to be Able to Know the Providence through Me. I've Lived with True Father (the Most).

You Need to be Able to Endure. You should never be (discouraged). Your Works can Move the hearts of our brothers and sisters.

And lastly, you Need to be healthy. Please eat well."

THESE (above Words) ARE THE WORDS OF True Mother
