August 2026

A summer filled with faith and friendship

A HARP and CARP Summer Workshop brought together 43 young people, including seven first-time guests, in Cascais, Portugal.

After morning devotions, participants learned about tradition, purity, and healthy relationships, and took part in sports and community activities.

The final prayer meeting deepened their bonds, and participants left inspired by the workshop's challenge not to adapt to the world, but to transform it.
