Heavenly Japan President Masaichi Hori speaks to the Japanese missionaries

On August 13, the second day of the workshop, Missionary Moon Shin-heung visited the workshop site and held a discussion meeting with the participants.

Listening attentively to the concerns and questions of the missionaries preparing to depart for destinations around the world, Missionary Moon Shin-heung encouraged them, expressing his hope that their missionary experience would become a happy and treasured memory that they would one day want to share with their own children.

Following their meeting, Missionary Moon Shin-heung presented each missionary with Death Valley

Holy Salt.

They then shared some warm moments together when he sang one of True Parents' favorite songs and they responded with another.

At the commissioning ceremony on the final day, the missionaries received words of encouragement from Heavenly Japan President Hori Masaichi.

They offered their resolutions before Heaven and took a bold first step toward their missions around the world.
