

Toward A New Heaven And A New Earth...

With the recent landing on the moon, many of us have come to the realization that we are living in a new age. The power we now have at our disposal, were it channelled constructively, is such that we can now build -- at least materially -- an "ideal" world. It is the great challenge of mankind to keep spiritual pace with the rapid acceleration of technology.

Yet, at this crucial point in history, we are witnessing the rapid decline of existing churches. For example, young people fail to see the relevance of Christianity as practiced by their parents and are turning away from organized religion in ever-increasing proportions. Failing to find a liveable religious philosophy in the churches, many young people are seeking Truth within themselves. (We are, after all, to be "temples" of God.) Others are looking to the Orient. But all people -- young and old, Christian and non-Christian alike -- still search for a way to put their ideals into practice and fulfill the desires of the heart.

In history, as man has advanced intellectually, technologically and spiritually, so God has worked unceasingly throughout the ages to reveal to man a progressively clearer expression of Divine Truth. Thus, the coming of Jesus clarified and fulfilled many of the teachings and prophecies of the Old Testament Age. But God's progressive work has, by no means, ended. As Jesus said to his disciples, "I have yet many things to say to you, but you cannot bear them now. When the Spirit of truth comes, he will guide you into all the truth."

Today the Bible's great prophecies are coming true, but many are being fulfilled in unexpected ways! In order to see the modern relevance of the Bible and to understand God's Will in twentieth century terms, man must receive new insight into the many symbols and parables of the Scriptures.

We of the Unified Family would like to share with you a great new vision from the Orient which has at its heart a unique and vital understanding of the Bible which had not been previously perceived. In living this teaching, people from all denominations of Christianity and other faiths have been able to reach beyond barriers to form a common bond of heart, and establish a world-wide, God centered community.
