June 13, 2023

On June 16th, CARP Los Angeles supported a special event honoring the 50th anniversary of the Professors World Peace Academy (PWPA), organized by PWPA Los Angeles. The purpose of the program was to convey Father and Mother Moon's vision for PWPA - bringing unity between religion and science, and conveying absolute values that can guide humankind towards peace. The program featured prominent professors from Los Angeles, as well as several international scholars who joined virtually. The program was a big success, and marks the one year anniversary of the PWPA LA chapter.
