On January 19th, Bridgeport CARP held their first event of the semester at the University of Bridgeport (UB).

The kickoff event was a talk and discussion on the theme "Why Am I Here?" and featured a thought-provoking lecture given by UB CARP President T. Kojima.

He shared the introduction of the Unification Principle, the teachings of CARP co-founders Father and Mother Moon.

The whole program was incredibly insightful and intriguing for all students who attended, and gave them a taste of what CARP has to offer.
