## Update on Destiny Junior School

Since its conception in 2009, there have been many investments in Destiny Junior School.

More recently this has been accelerated to meet the needs of local children from poor backgrounds.

In September 2020 the perimeter wall was completed and throughout 2023 IRFF UK has been funding the plastering work of the wall.

The support given to pay for the teachers and children's food and education has steadily risen to its current amount of £1,150 per month.

In addition, the Covid pandemic as well as the Ukraine war has contributed to the huge increase in food costs. As such, despite our increased funding, our contributions are still insufficient to cover all costs.

## Jesca Kyaligamba

Jesca is passionate about impacting the education of poor community children and providing them with the best possible primary-level education (PI-P7). She also desperately wants to protect the young girls in her school who are likely to get involved with boys and men from as early as 11 years old, get pregnant or catch HIV/AIDS.

Therefore she has been concentrating on the 'GirlChild' project where girls and boys are taught about sexual abstinence and safety, and girls are given menstrual health education and menstrual products to which they would otherwise have no access.

Jesca is now looking into purchasing a pad-making machine as this would

**a)** be a source of inexpensive pads

**b)** be a source of income to allow Destiny School to expand.

There are currently 206 pupils at Destiny Junior School but she tells us they have the capacity for 400 which she is eager to reach.

## Destiny Junior School Goals for early 2024

1. Increase IRFF UK monthly support for teachers and children by £300/month to facilitate the increase in student intake
2. Raise £820 to finance school furniture for the small children
3. Raise £2,000 to purchase a pad-making machine

Please consider supporting Jesca and this inspiring project and help us reach our goals!

### Menstruation Should Not Be An Obstacle In Life

As a charity for Africa, IRFF UK holds a strong promise to help underprivileged African girls facing challenges, especially period poverty, which makes it hard for them to go to school. We are dedicated to breaking down these barriers by making sure these girls have what they need for their periods. By doing this, we empower these young minds, giving them the chance to stay in school, learn, and break free from the cycle of poverty.

**Education is key to teaching locals that jiggers are not a curse from the Gods but rather a hygiene issue.**

From 2009 to mid 2022, IRFF UK ran a Mobile Medical Team which travelled to rural villages of Uganda, removing jiggers (fleas) which burrow into people's feet. The team educated the locals on personal hygiene and explained this was not a curse from the Gods but rather a matter of personal and home hygiene. A total of £35,000 was invested.
