

**As we close, please consider this Statement of Faith, and if it fits you, let's offer it up together...**

**W**e believe in one God, the cosmic Heavenly Parent. The creation of limitless True Love and happiness, both for God and for ourselves, is the very reason he created us and the purpose of our lives.

We believe the first progenitors of humanity, called in the Bible Adam and Eve, fell through the misuse of love, resulting in a tragic and painful human history. Jesus was born sinless to be the 2<sup>nd</sup> Adam and to initiate God's Kingdom through a new lineage. But, people's faithlessness and opposition prevented him from finding and raising his new Eve.

We believe that Sun Myung Moon was likewise born sinless to be the 3<sup>rd</sup> Adam and was called by Jesus to complete his unfinished mission in our era today. After discovering and systematizing the Divine Principle and successfully setting all the necessary conditions of historical indemnity, he and his new Eve, Hak Ja Han were Blessed in Marriage and became the True Parents. They will stand together for eternity as the new Adam and Eve, the new progenitors of humanity, who gave the world thousands of Blessed Couples who bore many children, free of Original Sin.

We believe that living a Principled life, sincerely living for the sake of others, and fulfilling the Three Blessings are the ultimate goals for each person as they prepare for their eternal life. It's therefore important to study ALL the words and teachings of Father and Mother Moon and practice them in our daily lives.

Aju.
