Hope this is useful.

I want to post this, so this information is not lost to future generations:

In about 1975 when I was East Garden Staff, There was the one and only staff-wide instruction from True Parents that I am aware of.

A copy of the book "Life in the World Unseen" by Anthony Borgia was to be read by each staff member and signed in the back and passed to the next staff member until all members had read it.

As far as I know this is the only (non-HSA) book given such a validation by True Father.

This book and others is available for a free download @

This book was introduced to True Father by George Norton who was one of Father's drivers during the 1965 tour.
