Start the new Year with friends and peace ambassadors

Hotel Campanile in Lomme, France, 26. January 2014

To start the New Year we invited friends and peace ambassadors for a breakfast, followed by an introduction about family values exposed by Bénédicte Suzuki. It's in connection with the actual debate about the manifestations "marriage for everybody". Each one could express his opinion and share about his experiences in life, concerning families, fidelity etc. The intervention of the 5 young students was just incredible. They testified about abstinence before marriage and fidelity in the couple. They expressed so much hope for the future. One professor, peace ambassador was so excited, he really wished that these second generation should organize meetings with other students to share their experiences. The meeting started at 08.30 am - 01.00 pm. Everybody left the meeting with full of new hope.

Chamarande, France, 19. January 2014

We had Sunday school organized for our 3rd generation for the fourth time. Domila and Urdo were in charge of the organization this time. They read a story to show that God created the water and that it's important for life. After that all we celebrated Samuel's birthday, then the children could play together freely. Everything went very well and the children loved it.
