Cheon II Guk American Youth Missionaries have landed in Czech Republic!

Roland Platt January 20, 2018

The Cheon II Guk American Youth Missionaries have finally landed in Czech Republic! The first two days we toured the historic city of Prague, taking in all its beauty and learning more of its illustrious history. We observed the deep background of the Czech people while also stopping now and then for some food and fun. Prague has many amazing sights and we are prepared to love it and its people with God's love as our guide!

Eager to share our blessings, we ventured onto the Czech University campus to visit the place where we will be reaching out to students for the next three months. While interacting with the students, we have become more and more immersed in the culture and history of the Czech Republic. We are so excited to give to the people of this country and share God's love.
