

## 2,075 Blessing Memories Book Project

Robert & Sally Sayre  
May 24, 2012

Your story of the matching, the preparation time (if you had one!) between your matching and blessing and now, thirty years later, looking back is something only YOU can tell. Your spouse is your closest observer, but really, only you can share this story.

The site is open for those who stood together on that hot July day in 1982 -- where in New York City -- we stood for an unforgettable and intimate moment with True Parents and each other to become spouses and sojourners for better or worse.

Whatever the challenges or successes life brought you, we invite you to come in and stand together once again -- 30 years later -- to tell your story and upload your pictures. Welcome. We plan to edit and compile these stories to be published at a later date to memorialize the journey we shared as a critical part of the American Providence.

Sharing these stories will help future generations understand what their ancestors went through. Our shared legacy will give our descendants a concrete picture of who we were. It will help them understand their roots as they grow into adulthood and become the future leaders we hoped they would and that the world needs.

The 2075 Blessing Memories site is a reading library, a writers nook, a visitors museum where the record of the challenges, loves, loyalties, ideals, disappointments, and fun we had are kept in perpetuity. Getting to where each of us are now was a journey of epic proportions! This hands-on site enables us to recall, record, and affirm what we did 30 years ago come July 1, 2012

Touching our seminal experiences in life allows us to be whole, to integrate our past and present. This allows us to adopt a hopeful attitude towards our future. Please share your story here.

Setup your profile here [www.2075blessingmemories.org/](http://www.2075blessingmemories.org/).

Share your photos and stories.
