Dear members and friends of the Unification Movement,

The past few months of 2022 have been such a blessing as I have been able to reconnect with many old friends and make new ones while visiting 7 cities across our nation. I have been sharing openly about the origin of the Schism that has caused such tremendous pain and suffering for our entire Movement.

On Saturday, January 14, 2023, I will be speaking in Davie, Florida. If you are in the area or have a friend there that you would like to invite, I would like to extend my invitation to all. Anyone who attends the event needs to register.

The title of the event is "Recent Providential Victories Amidst the Unification Schism". I will present on the topic of "The Root Cause and Consequences of the Unification Schism". Kenshu Aoki will share about recent providential victories in Korea. You can RSVP here: bit.ly/3CTCL4R
