Covrig Cosmin - Balan Alina - Ganea Ionut - Magdalena

Participants Reflections:

Covrig Cosmin (19 years old, Student of Theology). I was facing a great challenge in discussing with others of a different cultural background. Even I heard same notion that I can't accept yet, I still appreciate them as valuable lessons for life and spirit. All in one, everything was unique, filled with sincerity and true feelings. I learned and developed myself to be able to talk with every other existence other than mine and this was main things that I wanted to learn: how to make the first steps in loving someone.

Balan Alina (19 years old, student of Economic Academy). The two days that I spend in the midst of this association was very interesting for me and I liked the fact that we have been offered the possibility of enlarging the spiritual visions of every person who are willing to listen. Lately I had a period little ugly, in the sense that I couldn't gather myself, I couldn't see my individual value.

Now, at the end of all lectures, I feel more powerful and motivates. I really wish from all my soul to keep the same state from now on, not just talking about joy who manifests on the moment but about that continuous happiness.

Ganea Ionut (19 years, old, Student of Psychologie). I admit that I it was a interesting and remacable experience for me. Initially I did not imagine that I could withness such flow of interesting informations in front of my eyes. I feel the informations stick to myself and for sure they will help me in the future.

Magdalena (26 years old, graduate, Germany). A very rich workshop aranged by a wonderful, open, h eartful,enthusiastic, active group of young people.The lectures are prepared vey good and presented s o enthusiastic. You open minds and views helped me to accept things I couldn't before, not just accept but put in a new light. The workshop helped me to look deeply for the parallels between Christianity a nd Buddhism and open myself more for all religions. It supported me to look to my judgments and co ncepts Inside, to my prejudices and fears. You're all really insipiring people and on a such wonderful w ay to realize the real message of all realigions – on a spiriual way. Thank you from the heart for this ex perience.
