

1 Day Divine Principle Workshop

How to Restore Human Values

Bucharest, Romania, 15. June 2013

Greetings from Romania!

It was the second week of activity from our 44th 21 days JeongSeong Condition for JeonDo in Romania. As the growth stage of the condition, we could experience the importance of our work through internal and external challenges that appeared.

So we've had many lessons to learn - Heung Jin Nim: "If you see a problem or encounter difficulty, you must take that as a sign of hope that victory is coming your way. It is an indication that you are heading towards true restoration, recreation and resurrection. Problems and difficulties should enable you to say: "I know this is the right way." Would you think that way or would you turn back? So many people have turned back and refused to go through the door of victory. But Got has never turned back. "

Together we could hold the workshop for 3 new guests who are very young and pure. The next step is to prepare them for the upcoming 2 days Divine Principle Workshop.

Thank you very much!

Introductory songs

MC - Claxton James

Introduction + Principle of Creation – Herman David

Human Fall – Adam Florin

Introduction to Restoration – Thurner Nicole

Team games

Kamsahamnida!
