Back side of the card:

Our Attitude Towards Our Responsibility

1. If once you determine to fight, you should set up your own goal.

2. Before starting you should pledge to accomplish your determination before God and Central figure.

3. You should have so serious an attitude that if you can't accomplish your goal you must die.

4. You must have an adventurous and challenging life.

5. You must pray intently, try to do this like crazy, then everything will be shown by Father.

6. If you are prepared to die for God's will, you will gain your life.

7. If you wander like the dead you will surely die.

8. Always work hard by force. Sometimes I feel so sick, intolerably. But I don't worry about that so much. I think even if I am exhausted and die it is natural, so do your very best. When you exhaust your energy to accomplish the goal you will become a perfect object for God and you will be revived. This is the Principle.

9. So if you do everything trusting absolutely in God, He is responsible for you.

10. Therefore, you should challenge your own limitations.
