

Bay Area Family Church: Next Rally of Hope with True Mother September 6th

Kevin Thompson
August 11, 2020

Brothers and sisters

Thank you for everyone who could participate in last week's Rally of Hope with True Mother. As you know there were approximately 1.4 million participants and also an unknown number of millions of people who could watch on live TV through 70+ TV networks around the world. I sincerely hope that the people of South Korea took note of what True Mother is doing and the influence that she has with such prominent leaders. Also, I hope that the leadership of North Korea take note of what their North Korean famous citizen is doing. I hope that the time of True Mother visiting North Korea will come soon so that she can bring the message of God to her homeland.

Thank you also for all those who sent in a reflection. I submitted all of your reflections to Dr. Kim to be translated for True Mother. She wants to hear from our members worldwide, to understand what we got from the rally and where our hearts are at. I read a selection at Sunday Service this week.

The next Rally of Hope will be September 6th. Let's follow up with anyone who may have attended last week. Also, let those who missed it know what they missed. The plan is to have a Rally each month until the end of the year.

True Mother spoke earlier this year that we should let the world know about True Parents. We all agreed with that but had little idea how it was going to actually happen. Then, suddenly the world changed through Coronavirus and this opened up opportunities which we never imagined. At the same time, the technology was created to be able to host such a huge worldwide gathering. The technical challenges for our Korean church were new and bigger than they had ever faced before. Of course, this was the biggest ever audience to hear True Parents message at one time and needed to be flawless. I think we can thank the Korean church members for the great victory which they produced.

So many people have told me that they feel this was a turning point in God's Providence and this event even dwarfed Washington Monument of Yoido Rally. We shall see what God can do with such a condition.

So, let's not relax just yet. Rather, we should double our efforts to let people know about the next Rally and the next and the next. We have the chance to reach literally a billion people. Also, we should invite our ancestors to participate and be inspired.

Please be healthy and safe.
