

2023 was a very eventful year and we need to make 2024 a year of harvest and breakthrough

Kevin Thompson
January 7, 2024

Brothers and sisters,

2024 is up and running and will become the year of the Blue Dragon when the Chinese New Year starts.

2023 was a very eventful year and we need to make 2024 a year of harvest and breakthrough. True Mother has told us that, if we are one with her miracles can happen. I believe it and look forward to seeing such miracles unfold this year.

Let's keep in our prayers those who have serious health challenges at this time.

Blessings,

Kevin and Masako Thompson
