10 Years CARP Center Celebration

On the **18th of October** we celebrated **10 years of having our CARP Centre** in Vienna. For this event we invited some special guests, such as **Dr. Wolfgang Czerny**, who for many years was in charge of CARP in Austria and was also a founding member of the CARP Centre. He gave a testimony about his time with CARP and showed some pictures about the activities from the last 10 years.

Also **D. Zöhrer** and **Ewald Schenkermayr** said a few words about their time working with CARP/ HWH. After this introduction we had a buffet together and spent the rest of the evening enjoying the lovely food and talking together.

The aim of this event was to look back to the activities from the last 10 years organised by CARP and HWH and at the same time to look into the future and see what kind of activities we want to have for the next upcoming years.
