# July Updates

**HIGH NOON**  
life without shadows

## Camp Kogape

Andrew flew out and had a great time talking about sexual integrity with 120 young people out in the midwest of America. There was an amazing sense of togetherness and adventure that filled the air.

Andrew shared on how sexuality has been historically hijacked by the ill-intentioned and what we can do about it in our day to day lives.

## England

The High Noon spent one week in London, England. Our commitment is to provide hope and support to Blessed Families around the world. Currently our sights are on Europe. We made the trip to the UK in order to meet with their leadership team and speak to their local members.

We gave sermon at the South London church followed by a three hour program in the afternoon. We had 80 participants, including members who drove from hours away in order to hear us.

*Thank you for sharing about the topic of pornography.*

*I appreciate it because it was my first experience to hear these kinds of testimonies in church. It's good to open up in public. I attended with my husband and now we know how to discuss this topic openly in our family.*

## Germany

Sammy went on to Germany to speak at three different events.

### **Giessen Church Community**

35 people came out on a random weeknight to hear about High Noon and the topic of porn and sexual integrity. We spent an incredible 4 hours sharing about our message and the call to create radiant Blessings.

*FINALLY the light is being shed and Blessed Couples & Families can be substantially helped. Thank you!*

*I think this content should be spread to all Blessed Families! I'm from a different area and want to contribute to bring this to my community.*

### **German High School (HARP) Workshops**

Germany hosted separate workshops for males and females, allowing each to dive deep into what it means to be a true man and true woman. Sammy had the chance to speak at each.

For the boys' workshop, it was a grand time connecting with fellow dudes. In the morning there was a short discussion about what it means to be a man. Afterwards everyone was sent on assignment: Go exploring; Come back with a story and something cool.

It was a great time connecting with the inner wildness of men. People came back with stories of crawling through drainage pipes, animals they caught, and videos of themselves eating bugs.

The rest of the day was an open discussion about men's relationship with sex. Why the misuse of sex causes destruction in a man's life. How to prepare now in order to have great sex when Blessed.

As time went on, more and more clothing seemed to disappear from people's bodies. It started with shoes and socks, then by the afternoon everyone seemed to have lost their shirts and a few had misplaced their pants. There was lots of laughter and open questions on a wide range of topics.

Imagine being a teenager and having a place you felt comfortable to ask all the questions about sex and everything else to do with growing up you always wondered about? We had a great time.

Sammy then drove 40 minutes to spend a day at the girls' workshop:

*I was nervous going in, I must be the first guy in history to find his way into a girls only workshop. I was warmly welcomed and never felt out of place. There was a lot of honesty and by dinner time I felt like I was in a room with a bunch of my little sisters.*

*I'm glad I was able to share my past struggles with pornography and use that as a context to share with them some things that are important for their lives - courage to share honestly about oneself, how healthy sex is completely different than what's shown in media, that sex is something to look forward to in the Blessing, and most of all that each of them is perfectly lovable just the way they are.*

*To my fellow men, I can finally answer what goes on in Sisters' Night. It's a lot of karaoke, Just Dance, and nonstop love.*

*No matter what I was going through, the group meetings empowered me to keep moving forward and to not give up. I am very grateful to have met all of my group members and share this experience together. Thank you very much!!!*
