

The Mayor's Association for World Peace in Kalasin Province, Thailand Launched

Kamol Thananopavarn

October 4, 2019

On October 4, a Heavenly Tribal Messiah team in Kalasin, centering on Dr. Ronachit Phutthala, the former government district chief in Kalasin and Mrs. Sangkom Netsopa, a heavenly tribal messiah victor, successfully held a consultation to launch the Mayor's Association for World Peace in Kalasin centering on the Heavenly Tribal Messiahs and the YSP providence with goals to expand heavenly tribal messiahship and YSP projects with ownership of the local government administration and community leaders to help the providence in Kalasin become a model Cheon Il Guk providence for the world. There were 113 participants, including chairman of a sub-district administrative office, subdistrict headmen, village headmen, a director of health promotion from community hospital, teachers, government and community leaders with great support from former Kalasin University president and a former vice governor of Nakhon Phanom Province. All of them are blessed and many of them completed the three-day ceremony and went through Divine Principle seminar.

Dr. Ronachit and Mrs. Nuanchan Phutthala who currently also are co-chairman of FFWPU Kalasin gave a wonderful concluding report on the work of FFWPU and YSP in all eighteen districts of Kalasin in last six years and how they are teaching and Father and Mother Moon's vision of peace. They are showing that FFWPU can help promote the peace, happiness and unity of the Kalasin people, especially solving the problems that government is deeply concerned and worried about, such as domestic violence, family breakdown, crime, youth problems, drug abuse, etc.

Explaining the vision

Mrs. Sangkom inspired all participants by her explanation of Father and Mother Moon's Vision 2020 to create world peace and her dream to make Kalasin a model of the most peaceful province in the world. Also, Dr. Ronachit explained powerfully that each process of education and all activities of heavenly tribal messiah and the YSP project can transform people and make people happy. That can support the vision of UN sustainable development goals (SDGs) for which FFWPU and YSP had signed MOUs with many local government administrative organizations in Kalasin. Participants watched a video presentation about heavenly tribal messiahs and YSP projects in Kalasin since 2012.

Representative participants shared their experiences as blessed people who practice the teachings and blessed family traditions in their families and communities. They shared about what has happened in their sub-districts or communities after going through the blessing ceremony, workshops, education programs or YSP's Filial Heart of Thai Youth Camp. They also explained how heavenly tribal messiah and YSP projects influenced people in their communities to become better, happier people. All participants were inspired and determined to continue to invest, support and expand heavenly tribal messiah work and YSP projects. At the event, the desire to take responsibility and a united spurt to make Kalasin Province become model province of Cheon Il Guk filled the atmosphere. The event ended a charitable singing contest to raise funds to support the activities of FFWPU Thailand.
