### Character Education

The seminar for youths with the theme "DISCOVERING THE TRUE IDENTITY OF MY LIFE" was held at the regional headquarters of Cochabamba on December 5 to 7, 2014. In parallel another seminar was held for children. There were 27 participants for the Youth Seminar and 23 participants for the Children Seminar.

During this seminar the topics were focused on the Principles of Creation and the Human Fall. Dynamics, public service activities, exercises and theaters were also developed and were some of the activities being done aside from the lectures.

The good number of participants was not expected, so at first it was difficult to maintain order. It was felt that there's a need for a bigger seminar venue but despite of the limitations, the seminar left good

impressions. Each participant could get something he liked and that will serve useful for his life.
