

Small Group

Chaumont-Gistoux, Belgium, 1. July 2014

In our village Chaumont-Gistoux (south of Brussels) we continue with our small group initiative that we started in April this year. We met almost every week until now. Yesterday, the topic was the 3 phases of life and the 3 Blessings. One by one, we read some parts of the Divine Principle and some others from the Peace Messages concerning the topic.

The content embraced almost all the first chapter of the Divine Principle. The atmosphere was very deep, with some moment of fun also. ☺

We often share some real experiences we had when we could change our character by overcoming a difficult time in our heart. Everybody share with so much sincerity and sometimes with tears and a lot of emotion. So exiting, I cannot tell you!

This morning we received this nice email from one of the participant:

*Dear Yoko and Philippe
This morning I felt like writing you to thank you for this*

magnificent initiative to have meetings very often. Such a beautiful harmony. I think that we will be able to help Micky to find well-being and serenity. As to myself, it is rather amazing. Each time I retain a little thing that helps me to grow. So, I am on the right path. And this is thanks to you. It is crazy to see how you both have found a place in my life. It has been so nice to get to know you.

Big hug to you both.

Monique

We took time also to explain more about the different branches of our movement, FFWP, WFWP, UPF etc. Last week we could invite separately one of the ladies from our small group and teach her in detail the Principle of Creation. She was really inspired and is waiting to know more.

Part of our work is also to serve the village (12000 people), our Home Church. With one of the participant, Monique, we took the lead of a group, Social Work Council (with the support of the City Hall) to visit all the seniors (70 and more) of our village. For all of us, it is always deep experiences to discover how the people are living and wonderful moments when we can help them and make them happy.

Philippe & Yoko
