Dear Brothers and Sisters,

We hope this letter finds you well. Thank you for your dedicated investment for the sake of Heavenly Parent and True Parents.

Upon the victorious foundation of the 3-year graveside Jeongseong, the "4 Years of Hope" for the victory of Vision 2020 have begun centered on True Mother, for the purpose of substantiating Cheon Il Guk. We have just launched the "4 Years of Hope" in America, the Elder Son Nation, centered on Dr. Ki Hoon Kim, our Continental Chairman and Dr. Michael Balcomb, HSA-UWC President.

This year 2016 marks the 40th anniversary of the Yankee Stadium Rally and the Washington Monument Rally held on June 1 and September 18, 1976, respectively. Our Heavenly Parent and True Parents hope to see America leading the providential work around the world while also supporting the Father and the Mother Nations.

On April 22, we will celebrate the 56th anniversary of True Parents' Holy Wedding. Let us prepare for this day with special Jeongseong in one heart with Dr. Kim and Dr. Balcomb.

True Parents spoke on the significance of True Parents' Holy Marriage Blessing:

"The Unification Church established its family-level foundation in 1960. With this in place, it will not perish. Had we failed to establish that foundation, the church would have perished. What a historic event our Holy Wedding in 1960 was! It came on the foundation of Heaven's effort, through the course of the six thousand years of providential history, to find the one Adam. On that day, this Adam reached the standard on earth to receive the perfected Eve. This meant that the spirit world and physical world, which had been divided, could finally be joined on earth. Man represents heaven and woman represents earth. By their joining, the divided spirit world and physical world were joined. The wall that separated Adam and Eve and made them enemies to each other was broken down. The wall that had prevented Adam and Eve from meeting God collapsed. Satan had to slink away." (Cheon Seong Gyeong, Book 11, Chapter 5, Section 2, 5)

"No one in history was able to call out the name 'True Parents.' They never even conceived of it. But today you are in the glorious position of being able to call their name, know them and attend them. So you are in a happier and nobler position than anyone in history: Many people throughout history toiled and made tremendous sacrifices to lay the foundation for the victory of the True Parents at their coming, and to this day they are still toiling. Considering this, you should know that the words 'True Parents' that we speak today signify the greatest blessing for humanity." (Cheon Seong Gyeong, Book 2, Chapter 2, Section 1)

Through these words, we clearly know that our families originate from True Parents, our focal point. We as Blessed Central Families are in a truly fortunate position to inherit True Parents' true love, true life and true lineage through the Marriage Blessing.

Let us prepare to celebrate the anniversary of True Parents' Holy Wedding, offering Jeongseong condition with utmost devotion, sincerity and gratitude.

"You should be able to cry in yearning for True Parents, who are the very embodiments of God. You must long to see them over and over again. You must want to serve them, even by preparing a humble bowl of rice or a glass of water and offering it to them. You must have such sincere desire for them that you cannot help but shed tears in yearning. If you have that heart, you will become one with my heart. You will breathe together with me. In so doing, you will come to know the standard of my character, how it was authored by my past life course, and what is in its background. Furthermore, you will be able to inherit these things and take them on as your own." (Cheon Seong Gyeong Book 2, Chapter 4, Section 5)

Let us unite in one with all brothers and sisters in America and dedicate our work that will move the hearts of Heavenly Parent and True Parents. Let us make a new start and substantiate Heavenly Parent and True Parents' hope for America.

God Bless you,

Hiroshi and Hatsune Inose
