UPF Denmark had a UN International Day of Peace celebration in a big meeting room of the Danish Parliament (Christiansborg) on Sunday, 24 September, and over 200 people gathered.

Danish MP Christian Friis Back hosted the meeting, and four young speakers gave their speeches about the topic "Actions for Peace - Our Ambition for the #GlobalGoals." Those four speeches were excellent.

The harmony ceremony by religious leaders guided people's hearts to peace, and with the performance by the guitar player and the song by the jazz singer, the venue became one.

We felt Heavenly Parents and True Parents were presented, and all participants felt their love directly and indirectly. We also introduced True Parents to people, and we received many reflections that they felt so good and wanted to work with UPF. Thank you, Heavenly Parents and True Parents.
