

## Special National Devotions in the Czech Republic

As the 10th Anniversary of True Father approached and True Mother called everyone to focus during the special 40day period prior to the anniversary, in the Czech Republic we decided to join our hearts together and offer two special conditions to honor and meet our dearly missed True Father and to comfort our dear True Mother.

### **First condition was focused internally.**

We created a special altar dedicated to Father in the national Cheonshim Won, and offered a week of devotions: between 10th and 17th August 2022 Czech brothers and sisters came to national Cheonshim Won and individually offered prayers and flowers to remember True Father and His testament, and to make a new determination based on it. Every day at least one member or blessed family visited.

### **Second offering was centered on the public**

On Monday August 15th our UPF chapter in cooperation with the Women's Federation organized a national public lecture at our Peace Embassy in Prague, focused on the life and legacy of Son Myong Moon. Some 20 participants, half guests and half members, listened to testimonies on True Father's legacy by Ambassadors of Peace Dr. Roman Joch, director of the Citizen's Institute, and evangelical priest Mikulas Vymetal. Afterwords we heard 3 testimonies by members who directly witnessed the Pantanal Project, True Father's speech on the occasion of the founding of Abel UN and the founding of Washington Times. Everyone enjoyed a video of the Little Angles performance which witnessed even more about the amazing vision and accomplishments of True Parents, a korean song sang by two sisters and korean food.

Photos of members and blessed families honoring Father and of the public lecture at Peace Embassy are attached bellow.

With love and deep respect on behalf of all Czech brothers and sisters,

Cvetko & Eva Pejkofski, National President  
Czech Republic

*Blessed families from different parts of the country  
visiting Cheonshim Won*
