

Report on 40 day witnessing campaign mobilization

August 1st 2014, Albania

Dear brothers and sisters,

We are happy to report you on the launch of 40 day witnessing campaign mobilization for those members and guests who graduated 15 Day Divine Principle Seminar which took place from 10th – 25th of July 2014.

Our goal was that 70 members and guests who graduate 15 day DP seminar join the mobilization this year. After intensive care from each community leader, finally 50 brothers and sisters showed up at the Training Center on the evening of July 31st to join the mobilization. Of course there are many other brothers and sisters who will join the mobilization part time in their respective cities and center communities.

When everybody gathered at the Training Center, a lecture on Witnessing and the need to study the Divine Principle was given and also practical guidance about the purpose, motivation and attitude they should have in order to feel and experience the heart of our Heavenly Parent and True Parents and the greatness of Divine Principle. It is a great chance for many new brothers and sisters to taste True Parents tradition and practice living for the sake of others.

After dinner, 6 witnessing teams were formed and assigned to 6 cities where we have our centers in Albania. Two teams of fundraising also were formed with members who have some experience already.

This year also we did sent 3 members as pioneers in one city in Albania where they will have to manage everything by themselves, following the steps of the early members of our movement. We truly want to bring back the zeal and spirit of early days as True Mother is urging us to do and ignite the light of True Love which comes from Divine Principle and total dedication by living a life without shadow.

From September 3rd – 6th, brothers and sisters investing in witnessing to new lives will bring their guests to a 4 Day Divine Principle seminar. Each team is determined to bring many new guests and bring joy to Heavenly Parent and True Parents' hearts.

With such a spirit we would like to welcome the 2nd anniversary of our True Father Seonghwa and bring forward the providence in our nation, so much trusted and blessed by True Parents and a strategic nation!
