

# Essay Competition about True Father's Autobiography!

May 11<sup>th</sup> 2017, Korça, Albania

One wonderful project, which we are organizing is essay competition about True Father's Autobiography. On May 11<sup>th</sup>, we organized the main activity in the beautiful city of Korça in south-east of Albania.

This project was a collaboration between UPF and Educational Department of this city. 5 schools participated in the project, and 100 students wrote their essays.

We delivered 100 books of True Father's autobiography to these students and each one of them, after reading the book, wrote an essay with the same title as the autobiography "As Peace Loving Global Citizen."

Since the book is speaking about becoming a Global Citizen, the students, which were very inspired by True Father's life expressed in beautiful ways their feelings and their ideas in the essays. The content of the autobiography had a wonderful impact for the teachers as well. They supported the activity and helped the students to finalize the essays. Teachers were very inspired and took responsibility for developing this project.

The winners were chosen by a jury composed by teachers and peace ambassadors, who know well True Parents. 5 students received prizes, and they expressed their gratitude.

The project was concluded with an artistic ceremony prepared by students of these 5 schools. In the main activity 300 people, peace ambassadors, teachers, students, public figures participated.

We are very happy for having with us the special emissaries for Europe Dr. Pak and Dr. Moon. They expressed and transmitted Heavenly Parent and True Parents' love to everyone in the hall.

We want to express our gratitude to all the participants, students, teachers and to the Educational Department for working together in us in making a successful activity.
