

## Brazil's CheonBo Home Churches' One-on-One, and witnessing on daily life

Koichi Sasaki  
December 2022

In Brazil, activities of CheonBo Home Churches, One-on-One, and witnessing on daily life brought CheonBo and Blessed families to a new perspective on witnessing.

When the guests are incorporated into the CheonBo Home Churches, which has Weekly meetings, they receive personalized Divine Principle Education directly from the book, so they can experience the love of Heavenly Parents and True Parents deeply. CheonBo Home

Churches, One-on-One and witnessing on daily life have played an important role on supporting Brazilian families to attain victory on the Heavenly Tribal Messiah mission, in becoming CheonBo families and on achieving the substantial restoration of 43 families among the 430 who have taken the holy wine.

Since 2020, when the Covid-19 pandemic broke out and face-to-face activities had to cease, families reinvented themselves by trying new ways of keeping on witnessing in such a challenging environment. One of the ways was to hold the CheonBo Home Church meetings and One-on-one Divine Principle Education online, through the platform Zoom. Guests continued to be spiritually nourished online and guided to Divine Principle workshops.

The workshops also had to be held online. Throughout the pandemic, Brazil held 1-day, 2-day and 7-day Divine Principle workshops on the Zoom platform. Through this experience, we learned another good way to advance the witnessing even when it's not possible to meet in person with our guests.

Videos of the Divine Principle content were created with different time durations (5 minutes, 15 minutes, 30 minutes, 1 hour, 1 hour and a half) to meet all needs and time availability of the guests. Such videos were uploaded on Youtube, to facilitated large-scale access. From the beginning of the year 2020 until now (November 2022) our channel where the videos are has already a total of 145 thousand views. Along with the video productions, we started a campaign to send videos of the Divine Principle content via SNS (Whatssap, facebook, etc.).

During the years 2020 and 2022, Blessed Families and CheonBo Families have sent videos to about 45,000 guests.

At the appropriate time, such guests are guided to deepen their Divine Principle education through the various workshops (1 WS day, 2 WS days, 7 WS days). In order to support the conversion of new guests through Divine Principle, at the beginning of 2022, 14 consecutive 7-day Divine Principle Workshops were held in Brazil at the national level. After these workshops, the guests signed the FFWPU membership form. The single ones were sent to the full-time member course and the married ones to the CheonBo Home Churches in the local churches. So that new members can practice a life of faith and become solid members. Additionally, 21-Day workshops are held nationally every 2 months for those who have already attended the 7-day workshop education and signed the membership form, confirming their conversion.

The next step for Brazil's CheonBo families is to restore 12+ families and convert them into Blessed families. And then they will begin CheonBo Home Church activities.

Already with the foundation of 12+ Blessed families, CheonBo Families will be able to start the activities of the Heavenly Village Movement in their neighborhoods and establish the foundation of the Heavenly Parent Holy Community, through social activities, cultural festivals, partnerships and influencing local leaders.

On the spiritual foundation of the Cheon Shim Won prayer room in every church in Brazil, the spiritual environment is already prepared. Through the activities of CheonBo Home Churches, One-on-One and witnessing on daily life, giving love and Words to guests and spiritual children, the CheonBo Families of Brazil will move forward to become true CheonBo Home Church leaders and build the internal foundation to support the National Restoration and the victory of Vision 2027.
