Heavenly Parents' and True Parents' grace were bestowed to blessed families and members throughout the country through Ancestors' Liberation Ceremony, Ancestor's Blessing Ceremony and CheonBo Chanyang Yoksa, separating evil spirits that were attached to our bodies.

At the opening of the event, our elder leaders in Heavenly South America gave special addresses.

Heavenly South America Regional President, Rev. David Kim emphasized in his speech the importance of the liberation and blessing of ancestors, as well as the separation of evil spirits, thus further motivating members to continue participating in the CheonBo Works. Rev. David Kim announced that Brazil would be starting prayer vigils in Cheonshim Won, in order to mobilize the spirit world with spirit and truth, as we move forward in the providence towards national restoration.

Moreover, Rev. Seong Nam Kim, Heavenly Latin America HJ CheonBo Branch president, gave an inspirational opening speech, and conveyed the heart of our True Parents as he announced the reopening of the New Hope Training Center in Jardim, a historical place where True Parents offered immeasurable sincere devotion. All the members were moved by the announcement and committed themselves to offer sincere dedication to the successful reopening of the New Hope Training Center.

This event was an amazing opportunity for all the members to liberate and bless their ancestors moving forward to achieve victory at the vertical Heavenly Tribal Messiah as well as experience Heavenly Parent's and True Parents' love and grace, while we prepare ourselves for the Dedication of Cheonwon Gun in May 5th, 2023.

Many of the participants reported amazing spiritual experiences and a feeling of self-liberation and gratitude, while receiving the amazing grace of CheonBo Chanyang Yoksa, the grace of separation of evil spirits.

The Providence in Brazil is advancing rapidly towards fulfilling the will of the Heavenly Parent, bringing love and grace to all members.
