Reflections

"For many years which have passed waiting for the Messiah. Two thousand years ago True Parents came and they brought Heavenly Standard here on Earth. Ancestor's liberation and Ancestors Blessing it has been something that brought spiritual transformation in human history. True Parents established this spiritual training in order for the spirit world and physical world to be clean.

I attended the two (2) Chanyang sessions, however during Changyang Yeoksa and Ancestor Liberation, I had an experience in which I did not understand for some time when I was clapping, I receive a letter from my ancestor, this letter with a lot of information. The following is the message:

Dear My Grandson, I am so grateful for your support, care, effort and love which you have invested on us. We are very much sorry for the burdens that we have left when we were on Earth, please keep moving, we will support you wherever you go. He told me a lot of words in that letter. The following are encouragement which he gave in order for me to bare in my mind towards my life – He said:

Never commit sexual immorality for God wants to use you as a good teacher of truth.

Never complain over all difficulties which you may encounter. Always be grateful.

Never lie to people tell them about the importance of the physical world and spirit world through the principle and they will listen and follow God and True Parents through you.

Don't have jealous, anger and deceit because God can't work with you if you always have these things in mind – be positive every day.

Be grateful for what God has done.

He told me to keep moving with God and True Parents and to encourage people to keep connected to God and True Parents. He told me that, please encourage people to keep connected to God and True Parents without practicing above statements if they will keep doing those, they will be punished especially in those people in leadership positions in the same nation. You must pray for them. Always follow footsteps of God and True Parents (Rev. Moon and Mrs. Moon) towards God's providence. They recognize that Rev. Moon and Mrs. Moon indeed are the messiah of humankind. Please follow them. You should encourage each other to live good life."

"I would like to offer my sincere gratitude for this wonderful opportunity to attend this workshop. All

glory to Heavenly Parents and True Parents. This is an hour to know more about this liberation ceremony and after this 2-day workshop I felt a big change in my life. My wish is that to continue with this spirit and teach it to the next generation about the works and teachings of our beloved True Parents. As for this I am hoping that the next of my generation catch the spirit so that they can complete the will of God. Before we only knew casting out demons but not the teaching of liberation." Aju!!

"During the time I was called to sing for the Ancestors Blessing, the song called you Raise Me Up, I felt like at a certain point, my skin became so called then I saw around some shadows of spirit appreciating what the descendant did to them which as set them free and happy. Later on, when I carried on with the song, I saw again they shadows facing me making signs of appreciation. The time I was about to finish the song I saw my dad telling me I am so proud of you, your husband and your small family. I understand why he said that because we managed to finish to liberate our ancestors and going to work hard now to bless them before 2020."
