On Lithuanian Independence Day, we held an event called 'The Birthday of My Motherland' for the younger 2nd generation children aged 3-7.

The children discussed a deep and wide meaning of the word 'motherland', how we can express our love, respect, and gratitude to the country.

Then there was time for creativity and teamwork.

The children made pictures, danced and decorated the cake in the colors of the national flag.

Everybody was happy to meet in person after a long separation because of the pandemic.
