### **Reflection**

Sister Stephanie Chisha, second generation and youth missionary talked about her own experience every morning at 09 am while receiving faith guidance from Rev Chung. At first, she did not want to attend the workshop because she was on standby waiting for her new mission. While waiting for her new mission, she joined the workshop and learned many things that helped her to rediscover herself. Through Rev Chung's lectures, she learned to become a "happy person" as she concluded.

Wisted Chabinga, first generation and youth missionary expressed his gratitude to Heavenly Parent and

True Parents for this great opportunity. Through this workshop, he said, he was able to learn the Principle of Creation and understand better than before. Before he never used to show interest in the principle of Creation. During his first mission, he used to skip it. He is now able to explain the Principle of Creation as he concluded his testimony.

Right after their testimonies, Pastor Eric Mutewa who is in charge of the Blessed Family Department gave a congratulatory message to all workshop participants. In his remarks, he talked about the beginning of the workshop that starts after the workshop. He encouraged all workshop participants to be brave enough to follow the will of Heavenly Parent and True Parents.

Finally, Mr. Andrico Tshaba, Chung Pyung Heaven and Earth Training Center Heavenly Africa Branch read a congratulatory message on behalf of The President of Heavenly Africa Chung Pyung Heaven and Earth Training Center since he was attending conferences in Korea. In the Rev. Chung's message, "Now you are another new standing line. You need to channel what you learned through 21 days workshop such as witnessing and fundraising. Some of you have a mind to break through such as difficult obstacles" he concluded his message by saying, "There is no hope and vision of life in the secular world. You have your passion and enthusiasm in your mind that is why God loves young people. God knows everything about you and your future in life. Do not even think of escaping from God and spiritual world. They always observe you and your thinking. Just obey to God and follow God's providence then you will be blessed soon."

Participants were inspired and pledged to put into practice the teaching received and determine to take up the responsibilities.

The workshop was concluded with 3 cheers of Eok Mansei followed group photo taken in memory of this great day.
