April 5, 2021

WFWP Spain, inspired by the foundational spirit of Rev. Moon and Mrs. Hak Ja Han Moon, uses all opportunities it has to contribute to the education of human beings' conscience.

On this International UN Day of Conscience, our guest speakers, Enrique Sánchez Motos and the Catholic Priest Daniel Padilla, focused on Rebellion and Self-Realization.

The question was how rebellion can contribute to self-realization.

Both speakers approached the theme with a proactive stance; rebellion as a creative act which looks for transformation of the person and of a situation. It's an attempt to take responsibility for one's own life.

This fascinating topic was first introduced by Enrique and then developed by Father Padilla.
