This event was planned in order to pay homage to the work of Dolores Sopena, one of the first Spanish feminists, born in 1848 and passed in 1918.

Two speakers were invited to share about Sopena: the Director of the Palace (the birth place of Sopena), Inmaculada Ramon, who guides the visits there, and an 85-year old nun, María Jesús González, who joined the Dolores Sopena Foundation at the age of 17.

Both made extraordinary presentations, Inmaculada about the historical context, and especially the nun who was able to share a vital and profound knowledge of Sopena's mindset and work.

It was an inspirational talk with immense value for us all.
