

Providential Time Identity: True Parents will be accepted within next 7 to 10 years

Angus McDonald
September 26, 2018

Can we feel the time we are living in.

As a young child. 5 years and 9 months old I received that True Father was the Messiah. That was 1964. I had 3 revelations at that time. Then God told me I was not to try and get any more revelations until I was older. I did not receive anything about True Father again until about 6 years later.

Then for the next few years I had many revelations about True Father.

One such revelation happened in Brora during the summer which is very bright at night in the North of Scotland. I had gone to the School with my friend to watch a film. It was a small village and we were very lucky they showed films there in the School assembly hall which served a few purposes including our dining hall. The film we watched that night was The Games

[en.wikipedia.org/wiki/The_Games_\(film\)](https://en.wikipedia.org/wiki/The_Games_(film))

It was a very inspiring film about athletes training for the Olympic Marathon. The film followed their progress from being spotted and being brought through to compete in the Marathon. There was a young Aboriginee Boy, A Brit, An American played by Ryan O'Neil, A South African and I think a French man played by Charels Azenevour.

The Brit was played by Michael Crawford. It climaxed with the final race the Marathon at the Olympics. After that film I prayed and asked God if I could win the Olympic Marathon for him. Although I knew God was male and female that is how I prayed. I was spinning round a railing like children do and as I spun a voice entered my head and said the Olympic Marathon will be in Seoul in 1988. This was about 1971, nobody knew the Olympics would be in Seoul. I ran home and started running round our garden. It was ten pm at night but it was still light. My Mum came out and said What are you doing. I said I'm training for the Olympic Marathon.

Putting the experience in context. God already knew I had received that Father was the Messiah. God has a Providence and there is Providential Time Identity. Things happen within certain time windows. There was a chance at the end of the first forty-year prolongation course which can extend to 43 years that True Father could be accepted by the world at The Seoul Olympics. God is always preparing things in advance. I of course failed what perhaps could have been my bit part in all of that. Winning the Olympic Marathon is not easy. Because of that experience though athletics was something I loved. I managed to get entry to The Scottish School of Physical Education. That was forty years ago yesterday. They took fifty out of seven hundred applicants. I trained with some top athletes but I could not break through. Still from the experience and many others I know there will come another chance for the world to accept True Parents. It will be in the window 2025-2028. God is already preparing in advance. Speaking to people we have not yet met. Be prepared and look forward. As soon as Father knew that window had passed he called the next Blessing of International members. It was October 1988 and then January 1989. Instead of Having the glorious celebration at the Olympic Games the Messiah blessed his followers some of us in the MaCol Factory. Providence is alive and True Parents can and will be accepted within the next 7 to 10 years.
