Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

"We will create communities in which people produce, work and help each other economically. The atmosphere in those communities will be different from that in the world at large. Our main goal is not money. With the money we generate from these businesses, Unificationists will carry out their responsibilities in service to God and humankind."

By True Parents,

As it is a principle to start something before it develops into maturity, much courage is needed to germinate an ambition. On the 20th Feb 2021 the PEACEFUL FAMILIES ORGANIZATION through her agricultural wing known as WORLD FEEDERS FARMERS INNITIATIVE GROUP recently received some material donations from the AMBAZONIAN SPIRITUAL RELIEF FRIENDSHIP FOUNDATION as support for the realization of the TRUE LOVE FARMS project. At the premises of the WORLD PEACE HOME Complex, a fraction of the PEACEFUL FAMILIES assigned to carry out some work at the farm were privileged to receive these materials on behalf of the PEACEFUL FAMILIES ORGANIZATION. We, the Southern Cameroonian refugees of the PEACEFUL FAMILIES ORGANIZATION, thank this relief organization from the depth of our hearts as you rush to assist our initiative. May Heavenly Parents bless the AMBAZONIAN SPIRITUAL RELIEF FRIENDSHIP FOUNDATION (ASRF) abundantly.

These materials included a water pump, water storage galloon (2000L) capacity, 50 meters hose, cutlasses, hoes, a sprayer, 500 kg of poultry waste, and many other assorted equipment to enhance the easy operations of the garden. The farm land requires a lot of preparation like digging of storms, palms

and intensive plowing for this first phase. These materials are very adapted to kick start the entire operations. It was a wonderful event full of great expression of joy and hope by the PEACEFUL FAMILIES gathered.

The background of the True Love Farms is an indelible ambition to add lots of new things to the traditional vision of farming. The True love farms have at the center the ambition to bring God's substantial manifestation in agriculture to feed the world beyond all sorts of boundaries. True Love Farms is rooted on the spirituality, beliefs and principles of an ideal family concept where people living in absolute sexual purity, true fraternity and altruism centered on God as our Heavenly Parents will enjoy and share with their environs some heavenly strength and prosperity as they are investing into it. Also, there is the aspect of permitting our Heavenly Parents the opportunity to express a hyper degree of the substance of true love whereby, the products of the True Love Farms will bring exceptional healing and outstanding health for the best life imaginable. The initiation of True Love Farms will mark an historic foundation for an eternal success in agriculture through generations for all its members and supporters.

True Love farms will for this first phase have a garden, fish pond and poultry sections. These three groups will represent the ground, the water, and the air. The WORLD FEEDERS FARMERS team is determined to use only poultry waste as manure for maximum protection of the ecosystem and environment. The World Feeders farmers are also determined to make this farm as an offering to our Heavenly Parent and our True Parents, wishing earnestly to raise this farm into a reference center for the future.

The World Feeders Famers in collaboration with her mother organization, the PEACEFUL FAMILIES ORGANIZATION will continue to improve on the feeding content of the refugees and host community, while hoping to expand in the nearest future to the entire humanity.

We give glory, thanks and joy to our Heavenly Parents, True Parents and all of you appreciating and praying for us. We love you all.
