Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

Please live with that consciousness. You should understand that the Principle and the record of True Parents' life course are the root of heavenly law, and you should live your life aligned with these fundamentals. In your daily life, whether in your family life or at higher levels, you should never lose this. You should not be caught by your worldly circumstances.

By True Parents

We began it, we are continuing it. Today we still gathered some refugee families at the WORLD PEACE HOME of the Adagom 3 refugee settlement for assistance. The WORLD FEEDERS FARMERS ORGANIZATION, a bud of the PEACEFUL FAMILIES ORGANIZATION brought joy and simmered the consciences of the invited families over the value of living for the sake of others as a pathway to a true life and prosperity.

We harvested our vegetable named HEAVEN (Heaven and earth vegetable nutrients) and prepared bundles of firewood for 40 families represented. We chose three women to do the harvesting. These women were given this mission to restore the three Eves in God's 6000 biblical years. In the first harvesting 3 men were chosen to do the harvest restoring the responsibility of the 3 Adams. Originally, Adam and Eve would have taken care of humankind by feeding their children and set the standard in feeding the world that would have originated from them. Since this did not happen properly we have to

restore this. In both cases we have laid a foundation to begin a substantial foundation to become successful Adam and Eve families that will embrace and care for humanity feeding and improving on the quality and quantity of food for humanity.

Also, this day marks the third episode of our efforts in feeding the people. We started firstly with the distribution of firewood, we improved in the second by adding vegetables and in this third round we completed with both firewood and vegetables. We have included children in this round, giving this completion stage a family victory. In restoring history, our first stage marked Jacob's family victory. The second round marked Jesus and the Holy spirit's victory, and the third round marks True Parents victory. One very astonishing thing here is the role of firewood and vegetable. Firewood is masculine with fire. The vegetable is feminine.

I read True Parents words from Chambumo Gyeong, inspiring them in the necessity to become filial children to our Heavenly Parents and our True Parents, by resembling and representing them in parenting the world. I explained to them the necessity of living for the sake of others by giving to humanity our True Parents and their blessing as the most urgent activity. I let them think about the meaning of being children of God by taking responsibility for all humanity. It was very interesting.

After I gave a prayer thanking Heavenly Parents and our True Parents, the Catechist did the sharing of Heavens, and then firewood sharing was done by Mama Pastor of WORLD PEACE MINISTRIES. We had our family pictures. I asked them to stand by their firewood and we all had a general prayer.

Some made thankful remarks and appreciations. This was an interesting event marking the third phase of the foundation in realizing our promise to Heavenly Parents and True Parents. It is quite small and surely insignificant to many but in our hearts we experienced an exceptional feeling of accomplishment to push us higher. Upon this foundation we are moving forward into greater victories as we are working in mutuality and interdependence for the sake of our Heavenly Parents, True Parents and humanity.

We therefore gladly express our love and gratitude to our Heavenly Parents, True Parents and all of you who appreciate, partner and promote these heavenly initiatives. Thank you or your prayers.
