Sunhak Institute of History

On September 26, 2000, True Parents held the First Unification Blessing Ceremony for the Registration of the Four-Position Foundation at the Transition of the Three Ages at Cheongpyeong Heaven and Earth Training Center, Korea.

The Three Ages means the stage of the Old, New, and Completed Testament Age. The Three Ages is the term for preparing the completion age, so after finishing the Completed Testament Age, the Era of Victory will be begun.

At the Completed Testament Age, True Parents done the work which was not finished during the Old and New Testament Age and succeeded the to indemnify it. The transition of the three ages is the time to change into the age of the settlement, the completion of the growing, and the original home.

The Unification Blessing Ceremony for the Registration of the Four-Position Foundation is the ceremony to bless the three-generation. The previous blessing ceremonies were focus on ‘linage restoration ceremony’. On the other hand, the three-generation unified entering blessing is the gate for the families toward God.

The entering which comes from the word: the three-generation unified entering blessing means the registration as the citizens of the God's kingdom. This is like when kangaroo children grown up, they leave their parents. After the registration at the God's kingdom, people can be the independent citizens who do not rely on God.

A photograph of a man in a white patterned shirt speaking at a podium during a registration ceremony. The background features a banner with Chinese characters and English text. The banner includes the text 'The Four-Position Foundation' and 'Registration Ceremony'. The date '2000.9.28-30' is also visible. The man is standing on a stage, and a large audience is seated in front of him.

The Four-Position Foundation at the Transition of the Three Ages is the work to create the God's kingdom in this world. Usually, the registration is the second and creating the nation must be the first on the process of the registration ceremony, but for this time, True Father gave us love. Because of this love, the true family can register as the citizens for the god's kingdom.

In 1960, True Parents' manifestation was proclaimed after the Holy Blessing Ceremony. However, this is the True Parents' completion, not the beginning of the True Parents' life course. After the Holy Blessing Ceremony, 'the 40 days life course Age of True Parents' has been continued on the foundation of the inherit the True Parents' victorious.

Following this, for 40 years from 2000, the Age of children is begun and allowed for the parents and their children to be the one and then, to inherit the True Parents' right of the blessing to children in the realm of Adam.

At the same time, heung-jin nim recognized the blessing value which can be received both in the spirit world and the kingdom on earth.

Shouldn't we found the Kingdom of Heaven in our fatherland? Am I right, or am I wrong? This is our lives' work, the God-given mission we have staked our lives on. It would not matter even if your clan came to its end, your wife lost her life or you had to give up your own life. Others should come first in your hearts. That is why it was said, "Love the Lord your God with all your heart and with all your soul and with all your mind," and, "Love your neighbors as yourself."
