“

From this time on, the realms of Abel and Cain have to become one beyond the dimension of the physical world. To put this into effect, the Cain realm should unite with the Universal Peace Federation, which was launched in the position of the Abel UN. This is the formula. In order to establish the peace kingdom, the ideal world, we will have to break down all barriers and obstacles by working on the supra-religious and supranational level. By doing this, all humanity will fulfill their destined responsibility, whereby they will enter the original world according to God's ideal of creation. Then they will recover the original right of ownership that was lost due to the Fall of Adam and Eve.
