“

Jesus came on the national level with the authority of the king of kings. He inherited the victorious historical foundation of a lineage changed from Satan's to God's. Therefore, although Jesus was conceived in Mary's womb, Satan could not claim, "He is my son." Mary stood on the national level when she conceived Jesus. She conceived him based on the foundation of Israel's history, which passed down to her the tradition of Tamar's heart. Mary paid the indemnity of heart and, by doing so, rectified the mistake of Eve. She stood among those women of Israel whose course was to bear sons dedicated to the change of lineage. She conceived Jesus based on the completion of the restoration of the elder son. For these reasons, from the time of his conception, Satan could not claim Jesus as his son.
