MASTER SPEAKS

London Speech, 25th November 1974

Unification Church – Like Moses

This time the Conference for the Unity of the Sciences – the Science Conference turned out to be quite successful. I would like to thank every one of you that participated and who worked very hard. I would report that the prominent and distinguished scientists were most impressed by our young people. Your serving attitudes, your bright eyes, your good management and behind the scenes activity all were felt and made their impact. I expected such a result and I was deeply gratified by their comments about you.

Throughout history it has been true that whenever new things have begun usually they were not recognised too easily. However when there is a distinguished purpose and great cause behind them, then sooner or later the true value must come to the surface. These prominent scientists and professors, famed and known throughout the world, are just human beings when you talk directly to them. This is our valuable period of experience, to organize international conferences bringing together prominent people into organized work towards some expected result. We gained this at this conference.

We must bring together these fine academics so that they can really contribute a great unity of purpose in leading humanity. This time they discover the problems but not enough of the answers. By the time they complete the fourth conference in New York I am sure they will come up with clear-cut direction. The direction the world has to move in. Through them I know our Church and Father's image will be thought of in a more favourable manner and the Church will be recognised in this new dimension. The scholars know that the Unification Church is to serve the world in a truly magnificent and extraordinary way.

There are a great many scientists, prominent discoveries were made, great theories expounded, but today the scientist's field is so specialized they

are dealing with very minor parts of the entire field of science and they sometimes lose vision. The Unification Church here is putting these intellectual scientists together, bringing out some harmony to the sciences and a unified purpose to science.

When I bring this conference next year to New York I will deal with a great number of scientists and professors and of course I have been working in the U.S.A. laying the Foundation in many ways. So they know our activities are in a much greater dimension, so 350 regular conferences will gather together with 250 observers. Altogether over 600 people. It is going to be a gigantic meeting through which we can truly elevate our purpose one stage further. As I said, the scientific field is so specialized, there are so many international conferences on science and academic subjects held each year, but they are breaking down into specialized fields and areas that they do not even see the entire dimension of their own field of science. Now this time by bringing all the fields of science together they see the problems of each other with the great opportunity to see the problems of another field. Even Nobel Prizewinners – and there are many of them, and those who are dealing with special fields – but knowing so many other fields of great endeavour – they are trying to come up with the tremendous realization how important the unity of the sciences is. So once again in the field of international conferences we are setting another historical record – a new tremendous standard. It is my hope, ambition and desire in the future that the ten major universities of the U.S. will be organized – centred upon the major scientists primarily Nobel Prizewinners so that through them we can reach out to many students who are learning under those professors. Our Movement is dealing with all the endeavours of human life. Not just with the religious field. This is evident in recent years, in this present year we are meeting with so many prom-

inent people in the academic, political and cultural fields, including economic fields of the U.S.A. Now the science field is adding another dimension to our Movement by uniting all these prominent leaders of the U.S. and uniting them with the leadership of Europe. Another layer or foundation upon which we can bring even greater results for humanity. Later on we will have an organization which we will ask them to join.

This organization will be known and coveted by prominent scientists and scholars who will compete to join. I would like to see this happen, in organized specialized committees and each committee will come up with a research paper. We would publish an academic monthly and all the scientific world would be anxious and await our work. They will be looking for new breakthroughs through our own organization. We are primarily dealing with the religious movement and spiritual movement - this is a new idea, a new spiritual revolution which we are kindling. Whenever new things appear, the established tradition is bound to be against the new ideas. This has been the pattern of history, and this is no exception with our Movement. Therefore we have so many difficulties — people are trying to protest, rebel and ridicule in many ways.

However within the academic field there is universally a great desire and value placed upon the truth. This produces a certain unity and cohesive organization amongst intellectuals and it will bring the Unification Movement altogether into a new dimension. No-one has tried to bring unity to the intellectual minds of the world, no-one will doubt this. Yet we are attempting to bring a certain unity at the highest possible intellectual level and the scholars doing this and who succeed will be the ones who explore the greater truth in which we live. They will recognize truth because they if they testify to the spirit of Rev. Moon and what he is trying to do for the world. Their testimonies will be accepted by the world particularly by young students from colleges all over the world, more readily because they know the scholars are speaking the truth. So I would like to mobilize the brilliant minds of the world — the intellectuals of the world, by letting them have access through you to the absolute truth. So that through them we can really have a higher dimension to the Movement by making them the champions of crusading — for God's cause — The Kingdom of Heaven on Earth.

Some of you will have participated directly in

creating and managing the Science Conference — I am sure that you felt the magnitude and vision of the Science Conference. We know that that was accomplished by the application of our Principle sweat and hard work. You do understand? So let me change the subject.

The other day in the Conference, speaking to European National Leaders I mentioned that the Western mind is of a very analytical nature. As a result therefore the abstract concept of the 'heart of God', 'heart of the Parent' these concepts just didn't enter into your consciousness or feeling. Some people say simply that 'I just do not have any feeling.' I know this was the usual comment or complaint.

The Principle we are dealing with, Principle — the Principle set the formula, the pattern, or the way of life. We must follow the formula and Principle regardless. What is the Divine Principle which we learn? What kind of formula is Principle bringing out. This is the Principle to Restore the Fallen World into the original unsustained world. Because the Fall of Man, we lost the ideal — God's ideal and love, true love, genuine love, so we've been degraded and fallen way down into the dungeon and darkness. Therefore we have not seen truly the kind of life man is supposed to live. Therefore we need a bridge from the fallen state to the original ideal state — Principle is that bridge. The bridge connects the two points. The bridge had previously collapsed. So in the Principle we clearly state there are two points of life. One is the ideal life which God created in the Garden of Eden originally. The other is the way man lies in the fallen state. Therefore the Principle must make these two positions clearly known to the people. It is a great — probably the greatest contribution to the world of life, particularly the world of religion, that Divine Principle really brings and shows these people where and how to return. It sets out our goal and destined purpose and ideal world, whereas clearly on the other hand Divine Principle clearly points out the actual state that we are living in. What kind of diagnosis and illness we are suffering from. The problem was that throughout history there was religion but religion is so hazy, in a way, confused, they just don't know where they are and what is the goal. But the Divine Principle remove that confusion. The history of the Principle cannot be a theory or an opinion. If you have a good opinion or theory it would not be worth a dime

because the difference between a theory and the Principle is merely this. A principle has to be proved and backed by history. History has to testify how the Principle is true. Like the form of a ruler, we can reassure the history of the ruler by how it fits the formula. The concept of the dispensation, the central point, which is centred upon God, is made so absolutely clear, so by knowing and accepting the Principle you simply cannot deny the existence of God – the working living God throughout history. The history of the dispensation of God – of human history are not two separate histories but have to be one. The Divine Principle proves it. So we can prove through the Principle that God is the living God – in our way of life. That God is not a God of contact in our way of mind, but a God living our way of life. God brings human and the dispensational history together to show that they are one, they are not separate. Then the Principle clearly teaches that we are living in a fallen world, with fallen history, and that God is clearly showing the direction where to return. God is pointing us in that direction. The Unification Church and the Divine Principle conclude that the history of man is the history of Restoration. This is the greatest truth. The greatest discovery. Even great historians could not figure out the destiny of human history. Where the history is leading. The Divine Principle clearly teaches that history is running for restoration, we have a goal to which we must return. So the Principle clearly classifies and teaches the goal, the original ideal goal which was the original world of one absolute standard, and the other clearly points out the other that we are in a divided state, like a patient we are in an ill state. That state was clearly described – we are in ill faith. This state of illness is clearly described in the Divine Principle and shows the nature of the illness and how we return to Good Health. So we come to the conclusion that the fallen world in the sight of God is like a great big training school, the entire globe, the world is a training school. So we must enrol at the kindergarten and step by step receive the highest possible enlightenment. God has been putting all mankind through the training school, through the process of re-education and re-making that people. So far, before the Divine Principle discovery that this world has been the training centre, all appeared to be disorganized. There was no harmony, no channel, because we did not know the total vision – the whole vision. Just like

kindergarten children think that they know all, likewise at each stage – elementary, middle school, high school stage, we appear to know all the thoughts that are best. There is no communication, just isolation in such a system. Now Divine Principle puts them altogether under the one school Principle.

The Unification Religion has the responsibility and mission, it is our duty through the Principle and Truth to tell mankind the true direction and ultimate goal. Furthermore let them clearly see step by step the process of return. Let them know each stage of training that they are in. It is most logical that the direction we show through the Principle is the same direction that God is leading mankind. In other words we are revealing God's method and way, and that mankind by walking that way will ultimately reach God's ultimate goal – His Ideal World. So therefore Divine Principle shows how by knowing how man became sick and he can return to health, Principle shows how mankind fell and became sick. The process by which man fell step by step. We can show, then, how to return. So all the human fabric in our society – first you may see the position of parents, position of son, position of servant – further down is the unruly and ungodly area. So all mankind fits one of those camps. Fall of man brought mankind down to the ungodly area to the unruly area below the servant area. Mankind fell into this lowly unprincipled area. So those human positions – parents, son, adopted son – these are the steps for all man, one way or another we belong and have to pass through these stages. These are the steps that God is using to restore us. The fall means from the original position – you just deviated and brought yourself down. So the restoration must be the process reversed. Restoration has to be step by step. The kindergarten child cannot progress side by side with the college graduate. Nor can elementary pupil compete with an undergraduate. Hence you must finish elementary school before you go to high school. You must finish High School before you go to University. By the same token we must complete our steps of restoration, completing each one before passing on to the next. Then the most ideal way of course is to quicken the process, so that it is condensed so that you can traverse the entire process very quickly. If there is such a way. You can spend a tremendous length of time in each step. In other words you can stay in the kindergarten your entire life, if you want to. This is what is happening in the

religious world. Certain religions throughout history dealing with one minor area — they just do not know the entire scope of God's providence. So what we need is a super highway from kindergarten to college to the highest possible steps. If we complete that super highway then not only can all people see it but they can travel up it at sixty miles per hour. If there is a loving God, don't you think God would like to give his own children such a highway, so that all, without any exceptions, would be able to reach the top.

Don't you think that that same thing would be the desire of man, that man in agony would try to reach the magic way — to really go to the highest possible achievement. Is it true? (Yes).

That is the desire of God and the desire of man, both want the same thing. So then we come to the conclusion that both God and man need the same things — a super pioneer, a super construction company who will build the super highway from the bottom to the top, and this is the concept of the Messiah. The Messiah is coming as a contractor from God, to erect that highway. So the Restoration process is a circle process, because it is not a direct line movement returning the circle to the original point. The Fall of Man has been bringing mankind all the way down in the process of the circle. So when you want to bring history together you join the two closest positions on the circle, and you draw a straight line. You don't have to waste time going all the way down, if somebody shows that the shortest two points, even kindergarten and elementary children, they can run the distance without any difficulty.

God knows the shortest point, so God is sending down the God ordained Ph.D. Who has the Ph.D. from God? Do you think he has to go back to the kindergarten and study again? Or study at the elementary school, or high school, or the college. No, a free pass. He has the highest degree in heaven. So you know the scope of our work, the scope of our endeavour, in this extraordinary Movement. So if I ask you now what would you like to be, a kindergarten teacher, an elementary teacher, a college teacher, a mathematics teacher, a physics teacher at college? No. Everyone will say 'Can I have the same Ph.D. as you have?' That has to be my ambition and everybody's highest ambition. The Ph.D. will not only link two points, you cannot only run yourself, but really show to mankind how to do it. So in order to obtain this

Ph.D. you must belong to this one super Ph.D. and absolutely follow this pattern. He is the only one who knows the way. Is that true? This is why, there is the highest degree of loyalty, highest sense of devotion in our Movement. This is the key to achieve the highest possible goal. Throughout history mankind has failed the test from God. Everybody knows the problem. What is wrong with mankind? The problem was there but the answer was not there. Ultimately the clear-cut answer is given in the form of God's revelation — Unification Thought. The Divine Principle. Giving us not the problem but the answer.

So the Messiah is the person who not only knows the problem, but brings down the answer to the problem. Do you want that answer? (Yes.) Well you can write down anything you like, you can think of anything you want or can think of, or you must learn. The most important thing is to recognise the teacher, to write down and learn, to acknowledge Father. What is the Unification Church? The Unification Church reduces the entire history into a capsule, swallow that capsule and you can indemnify the entire history at once. That is the Unification Church. So 7,000 years history of man, which is wrong history of man, we will compress into one seven year capsule. What kind of school would you like to go to? A 7,000 year school or a seven year school? You really want to go to that goal, so we must run at a super speed. Any fast moving vehicle usually requires more noise and more fuel, isn't that true? So the Unification Church runs — always noise, not small but big noise, so we need great energy. So do you think you need the supply of that energy? (Yes). No matter how fast a running car you have with a super highway in front of you, if you don't have the fuel in the fuel tank that car would not run. So you come to the filling station now, all the pipelines are out. Don't you think it is necessary? Yes! If you know the simple truth nothing will stop you. You have a whole new universe opened up, with great power and courage. So the restoration process is going back to one point. From that one point you can make as big a circle as you want, or a smaller circle, as small as you want. We are going the short cut, the shortest possible way. Mankind one way or another is in the same position on this circle or circles of restoration on the smaller or bigger circle, either the second or third, etc. running on one circle, any way. The important thing we

have to do is to show the shortest cut – there is only one shortest distance – a straight line between circles. Only one line can be the shortest, we must breach these distances at the shortest point to reach the goal quickly. We come to the conclusion that we are going to show the world the shortest cut. The shortest cut God is pulling we've been pulled and follow His way. The fall of man, the process of the fall has brought man down – way down, lower than the servant and so man has become lower than the servant. In fact he became the servant to the servant. So we will find the shortest cut from that position to servant position. The shortest route from servant position to adopted son position. The shortest route from adopted son position to true son position. Then ultimately becoming the parent position under God. The Divine Principle is bringing that shortest cut distance. Even without seeing the Bible we know, we sense, we feel it, we perceive it intuitively that this is the truth. Even without looking at one page of the Bible. God gave us power, intellectual judgment – the power to think, God given reason. If you reason the way of almighty God, as children we must accept that God is working throughout history – the course of restoration. That is the ultimate conclusion. So it is commonsense, great commonsense, which is the greatest truth in the world really. If there is a God, God is trying to see his idea realized – there is one absolute truth. One secret formula that is hidden from the reach of man. Furthermore our Principle is backed by the Bible. Therefore proof that we are living the truth, and through the formula we can evaluate all levels of religions – what kind of state they are in. You are on the mountain top and you can look down and evaluate all the others below you.

So we come to the conclusion, in order to link all religions, all true religions in the East and West throughout history God has been working through one central point, one actual religion. There must be a central role for one particular religion. You will see that the whole history has purpose. Whole religion has purpose and direction, that must be the obvious conclusion.

Nobody can hope to live for one million years to see all the processes of religion. For even if you did you would recognise that all religion has the same direction.

If there is the highest mountain – I do not know what is the highest mountain here but

everyone can see it over there. That is the goal. Then what direction do you have? – the person looking up to that goal and really ruthlessly applying himself to reach that goal. He tries even to death until he dies. But nobody can live eternally. So a person going towards the goal may falter and die. The next person must pick up the mission and go over him, over his body. Go another step and he also fell and died. Then another comes along and he goes on and dies. Another person comes forward – this is the process of history. If nobody is found, if no successor is found, then that particular covered ground remains without any further development for thousands of years. Only an eternal person can conceive and summarise the entire history of man. Since there is no eternal person on Earth only God is eternal so he can see the whole situation. Then God is an appointed hour, He will send one man in a clear programme, to tie everything together to bring everyone to the top of the mountain. So this man, the champion of God in the name of the Messiah comes to show them the answer, the power to construct the highway and to show the individual to give all of mankind the automobile. All we need then is the fuel and to select the highest gear and run. Then this Messiah – this one man from God – will not only give the fuel, the super highway, the automobile, and leading that trend and thousands of automobiles – giving you a very good sightseeing tour. Sightseeing tour is not going to be very pleasant – one is going to see the valleys of death, the valley of skulls. 'Well' you will say 'this is the valley so many millions of people tried to elevate themselves from the position of servant to a servant and they came thus far and died. These are the skulls. Then we come to the next stage, and the next, etc. all the way to the top. How many people really tried and failed along the way of the guided tour? So the concept now is becoming clear to you in your mind? So what we see all these phenomena of the world of the religions, there must be one central religion, then elevate all the values of the different religious histories then we come to the conclusion Christianity has been playing the central role, it has consistently the shortest route comparable to all others showing a clear-cut direction to the top of the mountain. Christianity has even symbolically shown the way even if man was not able to interpret it. Now through Divine Principle we know the Bible has a concept of servant to servant position, and bringing man up to servant

position, then bringing man up to adopted son position, then direct son position and daughter position to True Parents position.

This clear-cut stage is clearly stated and given in the Christian Religion. So through the Holy Bible, through Christianity and now in the light of the Divine Principle the Bible becomes clear. Before the Principle the Bible is a confusing book, a book of confusion. But we know that God has been working consistently throughout history. Do you understand? (Yes). Christianity has been given the role of pioneer in Western Civilisation all over the world. They were to travel all over the world, and finally running towards this day of fulfilment. So it is a clear-cut pattern of history. Through the Holy Bible before Jacob man was in the historical position of being a servant to a servant, even lower than a servant, then from Jacob to Jesus man was in the position of servant. From Jesus to today, that has been the adopted son period.

When the Lord of the Second Advent comes he will show the way to become a True Son and Daughter of God. In order to do that, what you have first is True Parents. Without True Parents, how can you become True Sons and Daughters, without True Parents, how can you be born?

The other day at the European Leaders Conference I told the Abel his responsibility is to fulfil his mission in the son's role and then to elevate himself to the parents' role – Father and Mother. Now do you understand clearly these steps? (Yes).

I want you to know that these records I discovered even before I received the Divine Principle through Revelation. I knew the structure, the framework of God's pattern and formula. His Principle so clearly then piece by piece I discovered the Divine Principle and have then revealed to the world the Complete Truth. This Principle fits into the logic of man and God, fits into the Truth of the Bible, therefore it has the complete unity and proof historically from the past, present, to the future. There is the one consistent goal and therefore this Principle alone can give the direction to mankind. Did you know before you knew Principle the direction of the world? (No!). Now, do you know? (Yes). So when you know that you were discovered you had to about face. You discovered yourself and your new goal. Many of you were facing in the wrong direction, so when some of you joined the Movement the leaders said 'About turn'. What

would you do if you found yourself looking in the opposite direction? You would have to turn. You must turn. (Much laughter).

So once we discover this fundamental opening goal nothing can stop you, even your lover cannot turn you round. 'No! No! No! This way.' 'I'm going this way'. (Emphasized with movement). Your parents would say 'Come this way?' You reply 'No. No. This way'. Your friends, your nation, your relatives, your society, your school, your honour, with everything at stake all try to turn you round, but you must be able to turn and go without fail towards that goal. This is the first criteria to be a Unification Church Member. Are you? Yes! Once this truth comes to you it not only comes as the truth, it comes as a power, truth is power. Once you really know the Truth, God will provide automatically the power to turn. This is the power of the Father.

This will eventually become your power. You have that power. So – if the person truly knows the Principle, can he become a drop-out? No - actually even I say, take it easy a little bit, sit down son, relax a little, come later. 'No. No. No. I must come now!' This has to be the reply determining our attitude. Because our opportunity is not there for eternity, isn't that right? Our lives are not here for eternity. We are given just this one golden opportunity, and if you miss that opportunity, there is not another one, so that the road of restoration is a busy road. How do you know when you will die? Now let's say many people say well that's a very wonderful truth, but let me finish my own thing first, my high school, my college, my own M.A. degree, my own world wide Ph.D., and then I will apply for that Ph.D. But do you have a guarantee that God will sustain your life up to that moment? No. Does anybody have that guarantee? No. So who is the wise man? A man who feels the urgency of it, so that your first goal is to get the heavenly Ph.D. first, then think about something else. Then you have a guarantee of your life. Actually the Bible has been saying what the Father has been teaching, this Unification teaching. It has already been said by the Bible. The Bible says that he who tries to gain his life will lose it, but he who loses his life for my sake will find it. Didn't the Bible say you must bear the cross every day, but it just says it without showing the clear-cut goal – so it didn't give the power to reach this goal. Do you know what I mean? (Yes). This morning our Father

has only a limited time to speak and we are enjoying this session very much. (Yes, yes. Applause). Now don't you feel, one hour ago you were here and you are a good man, or good woman, and in a good state, but in one hour later after hearing Father's message you know you are elevated. Right? (Yes). But you don't know when that process took place, when you changed, but you do know one thing, the result is different. In other words you are already spiritually in a different area than one hour ago. Those people who were tremendous searchers, who taught and searched for the true meaning of life throughout history, but they did not get the answers and many millions were in anguish and faltered and died. How fortunate we are, we have seen the glory of life and we are going that way.

So actually this is really the moment of great celebration. Even shooting a 21 gun salute would be suitable for this day. We come to the conclusion that the truth makes men great. The truth makes man new, the truth makes man truly tall. So it really makes sense when the Bible says 'When you know the truth, the truth will make you free.' So if you sometimes fall apart, or rather fall away and try to find some comfort in the outside world, I assure you you will never be able to escape this concept, you cannot remove this truth from your mind. So I want you to know therefore that when you go outside you will discover this. Let's say to yourself I cannot see any vision here in this Movement, but when you do so you will see that you can learn even more outside that indeed this is the truth and I must go back. This is the conclusion that everyone will reach, but in the meantime great damage was made, when you temporally go out of the Movement, that is something like committing another sin, another fallen process. You have repeated this process and so you will have to doubly recover. So that is really tragic and I know that. May I say this to you, if there is an easy way outside that you can go and still you can achieve God's goal, I do not want you to leave me, I will lead you that way then. Do you think I don't have that kind of mind? I tested out every way. I know our road is not an easy one, but I do know also that it is the only one, therefore I'm going the way everyone is destined to go. So if you are determined to go, would you like to waste a lot of time, or would you like to go real fast? (Fast).

Everyone when they start would like to already arrive at their destination – isn't that right?

(Yes!). Some persons really would like to fly like a computer flash, even invisible – as fast or faster than the fastest bullet, at an invisible speed. So I came to the conclusion, a long, long time ago that nothing can compete with this teaching – absolutely nothing.

Now when God is anxiously asking, can you meet my expectation, you know the way, can I see you at the arrival point or terminal point? What would be your answer? Yes or no? (Yes). Even unto your life? Even at death? Yes.

If my life cannot bring the destination, still you cannot give up. Your children must go, your grandchildren must go. This distance of highway must be covered. That is the Unification way. That is our way of life. We come to the ultimate truth. God's way is like a rope which is down here and if you don't climb up this rope you will fall right down below the rope. Many people can stand around and be spectators enjoying what they see. You can take that route. But being a spectator would not bring you any higher, you are still down there all the time and the rest of the people are all up there. You must come to that one point, right below the rope – that is the beginning point. That is the unifying point, that is the harmonizing point, there is only one such point and you must come up to that point. In other words the Unification Church is that point. You must come there. So since everyone has to come to that one unifying point, do you think we can talk about unification? Could we or not? (Yes). So that is why our name is the Unification Church. So is it a good name or a bad name? (Good). We say a good name and the rest of the world says a bad name, (laughter) but do not worry – no matter what the people say outside do not pay any attention, because each step you go up on the rope from the point, and then you look down upon where they are. Other people will say 'Oh! Ah!'. They keep saying bad but they keep on coming to that point. (Laughter). We have only one direction to go, that is upward and other people are bound to see us as time goes on. So I come to another conclusion, Unification Church is the one that can set the greatest and extraordinary record, that no-one else can compete with, in the shortest possible time. We have that energy, that vision. So we are the record breakers in all fields, in all fields that we have encountered we have broken the record in it. Are we doing that record breaking? (Yes).

So again this is another proof that this truth this Movement is the one, the ultimate one and is right. Do you follow me? Yes. The entire world is at stake, billions of people's lives are at stake. Your one life you have it to invest, are you afraid to do this? (No). Jesus knew this same truth. That is he who tries to gain his life will lose it, but he who loses his life for my sake will find it.

The heavenly rope as it extends all the way from heaven, to all the way down to the extreme bottom, because that one rope of salvation must go straight to the bottom of the dungeon, because salvation belongs to everyone. All of the people in order to reach up that rope, in many cases they have to go down to get up. They must really go to the worse downward point and pass through all kinds of ridicule and persecution. So the Holy Bible says that those who lower themselves will elevate themselves, because when he finds the rope, he alone can climb it.

The Bible when you really know the ultimate truth, it is telling a lot of good truth, isn't it? (Yes).

So we know we are destined to go in that one direction by God. So I know that direction. I know that treasure chest. I'm leading, so what would you do? Would you want to listen to me, or not? (Yes). Many people say to me, who are you? You come here from Korea, an oriental man, we have a beautiful civilization in the western world, we are enjoying a golden age and we have a great empire. What are you talking about? People can say to me in this way. Do you think it is the right thing for them to say? (No). No. That is not right. The person who thinks in that narrow term will only dig himself into a hole. Even logically speaking — commonsense — if anyone analyses our Movement from any angle, they come to the same conclusion. We are right. All of you must come from one direction and that direction is clearly given, so we are fortunate. So once you grab the rope, you must stick to the rope first and then move step by step upward. In the middle — if you release the rope what happens? You will be shattered into pieces. While you are doing this important heavenly circus act — climbing the rope (very much laughter) your millions of ancestors in the heavenly world are the spectators. They are cheering, come on my grandchild, etc. When you are sweating with each step, they are sweating also. They shake and tremble. So at that crucial moment, you could not make that final point and you release the rope, it's not just a

disappointment to you, but your millions of ancestors up there. They all fall down and are shattered together. So this is a much greater grief and sorrow to all the spirit world. Not just to your direct ancestors, but their relatives, their friends altogether they have a grieving day. Not only them, but God himself, and all the host of angels, they are watching and cheering also. So when you see that someone could not make it, it is also a grief and heart-breaking moment and piercing God's heart. There is not such a thing as it may be so, it is so — it is a most realistic description of the state of the spirit world. Now, do you have that realistic concept? Our Movement is not a horizontal one, but the vertically connected one. Is that not true? (Yes). If that is the case that means we must not only work for ourselves but for so many people who are waiting for our achievement, day in and day out in the spirit world. We must feel their hearts.

Suppose 50 million U.K. citizens were here, and if they really knew that this is the one great ultimate way they have to go, do you think that all the fifty million would not cheer, or would cheer? (Cheer — Yes). The only reason they do not cheer is that they do not know what is happening. They don't know and that is why they are out there just being idle. But the spirit world knows and that is why they are giving that cheer. Therefore your climbing the rope and going up step by step is not only your business alone, but the business of your country, the business of your ancestors, and the business of heaven and earth. Does it realistically come to you? Can you feel it? (Yes).

My path and my grabbing the rope is representing the world and its destiny. In order to make sure you would never fall from this rope, a wise man would not only grab with both hands but even the rope would go around his neck, his body, and his legs and even if your two hands were released you'd still be up there. That kind of security people want. To make sure and have absolute assurance that you will stay up there. Then each one of us is climbing up, but all of a sudden, someone way up on top, with a crane, brings you a rope and cranks you up, and you just stay there whilst being pulled up. Are you grateful or not? That is precisely happening in the Unification Church. So actually you are fortunate to have this heavenly crane up there, and always when you push the button the engine is running and is cranking up that rope. So

really all you have to do is hang on to the rope. You think you are not moving ahead and that you are not making any progress, but you are because that crane is pulling you up. Father is that crane. What I am doing in America is bringing to you the biggest possible weapon and cannon to you and at the same time lifting you up by that crane. Can you realistically understand? (Yes). You think here I am doing this daily chore, it's a pity staying all this time in the kitchen and just wasting time and going out on the street selling all day and every hour. Can I make any progress? But while you are doing these things, the entire Movement is being pulled up by the crane. Now when you see that you are elevated and you suddenly see that the whole world is under you and you are looking down at the world. See the beautiful goal and terminal, beautiful station up there, just see the excitement as you are getting nearer to the goal.

You are on that rope, right? (Yes). But you are on the heavenly rope and around you is the worldly rope, one rope of mother, one rope of the brothers, rope of the Parents, rope of the society, rope of honour, rope of the nation, pulling you down, saying to you, don't go, you don't have to go now. (Laughter). There are so many ropes, and they are pulling you down, saying why should you go that hard way, come here and sit down and let's have a little good time here. You can change and swap the rope from this one that is tying you down to the one pulling you up. Fortunately Father gave you a knife to cut off those worldly ropes you have around you. Clean yourself up, so that you are much lighter. Much lighter and you don't have to bring with you so much burden for you yourself already are carrying a heavy load. So don't increase your burden, but when you get there, to the goal, you will have full strength to bring all those people, one by one, bring them up to your place. You can reach and bring them up to your own joy. Actually that is the best way you are serving your parents, your brothers, your country and humanity, because you yourself got up to your destination first and reached out to as many people as possible. Your family learning the same tradition have to reach out to as many people as possible and bring them up to your state. You yourself must get there first. That is the prime goal.

Are you confident? (Yes). So we have our measurement, by saying the first seven year course, and second seven year course and third seven year

course. So that will represent Old Testament era, New Testament era, and Completed Testament era. We are all going through this period. In seven years time we are passing through 2,000 years of history. Each seven years. The 2,000 years period can be compressed into at least 700 years. Even that compressed super history can be compressed yet again into a seven year capsule.

All we have to do is swallow one seven year capsule. We are making restitution for the verticle 6,000 years of Biblical History, in horizontal 21 year dispensation. Fortunately it is a wonderful thing to declare that the second seven year course is completed at the end of 1974, with triumph. In forty days 1974 will be completed. I am leaving tomorrow to undertake the continuation of the 8 city of hope tour, and I will continue my crusade in the west coast area of the United States — Seattle, San Francisco and Los Angeles I sense, I really particularly sense how the urgency has been declared in the Spirit World. They are breathtakingly awaiting our victory. They are really holding their hands waiting. This world is like a ship without a captain on the ocean and if the ship is almost being wrecked, with no direction and means to stabilize itself. We are the ones who must pump out the slack water to stabilize the ship of the world. Like putting a rope on both sides of it to keep it afloat. The ship must be battened down to prevent it leaking and sinking so that we can salvage it — lift it right up to good health — sailing beautifully. I feel that is the realistic picture. Put yourself into the position of God. God is there at each moment of the battle. He is there first and He is the one who feels the realistic excitement. The spirit world is bubbling with enthusiasm. This world is the latest, but still is getting something of this feeling. So the final hill to go over, that top of the hill is within our reach, so my whole system, and every ounce of my energy, and every single cell, can feel it. So the whole spirit world is saying I don't care about Great Britain, U.S.A., Korea, Japan, they may go for a while towards destruction, let that be allowed, but we cannot allow anything to happen to the Unification Church. That is the urgency in the Spirit World. We must successfully go over this ultimate hill, then we will bring the liberation to the entire world. If you not only know by reasoning, by concept, by learning the Principle, but you feel it is in your very bones, then you are really the ones — God's people. You must know the

Messiah is the one that is not only the Saviour but he is the one who gives you resurrection, and gives you recreation and who gives you the newer vision so that he is remaking and remoulding the world into the new pattern. That's the one we have as Father. Furthermore he is the person who is closest to you, you must know this. Where would you like to keep that person? In a brother's position? Or husband and wife relationship? The closest human relationship in this universe is that between Father and son. Don't you want to keep him in your Father's position? Right? (Right!). So it is most logical that we proclaim the new word in our Movement. The greatest words we are saying in our Movement are True Parents. No-one has spoken this before in History. We are the first ones to say this, and we know why these new words True Parents are the absolute precious ones. So if you really serve them, and attend them in the position of True Parents, then your first duty is to become a True Son and Daughter, otherwise the True Parents and you have no connection. So this is most logical. That is really the blessed land. That is really the blessed Kingdom. You are then put apart from the world and you have entered a truly separate world in which you have True Parents and you yourself are in the son and daughter position. Soon you will have your own family, so that you can have your home of heaven in which the True Parents are at the Centre. Dwelling with you for eternity. When you perfect your position in that relationship with the True Parents, all you have to do is expand it. From one Family to two, from two families to four, and when it is bigger it becomes a tribe. When it gets bigger and it becomes a nation and when it gets even bigger it becomes a world. Do you follow me? (Yes). You know the truth now. Let me draw the conclusion. Here is a rope, one central rope from Heaven, but each one of you is standing in various distances from this one central point, because you are the fruit of your ancestral tree, therefore you are the accumulative total of the accomplishment of your family tree. Therefore that makes up the distances. It could be that the newest member who joined this week, could be the closest person to the rope, because of the accumulative total of the accomplishments of his ancestral tree, maybe even greater. So the Bible says 'The first shall be last, and the last will be first'. I am merely saying that this is a possibility. If we did not have the truth that the Vertical history is indemnified in

a horizontal way, no-one could jump the distance and come to the central point immediately.

You are the ones who have conquered the distance, from your point to the Central Point, but there is One Leader, one central figure who is drawing the rope, and showing the distance, asking people to hold onto the rope and pull upwards. He is called the Second Coming of Christ in Christian Philosophy, and he is the person who has come to the earth, who shows us the rope and the distance to go. Therefore, the Messiah is coming as the central point, throwing the rope all over the world. So that everybody can know the central point and conquer the distance easily. That is why we have to send out Missionaries all over the world. The missionaries are that rope. Understand? (Yes). And you missionaries going out to your respective missions are throwing the rope of life. That is your job, that is the witnessing. That is bringing in members, that is the job, you must throw more and more the rope of life, all over in all four directions, so that millions of people can reach and find you. So is it a busy task, or a lazy one? (Busy). While you are sleeping, or while taking a very leisurely nap maybe, thousands or millions of lives are dying and drifting further away from God. Man at the most lives for 100 years. Let's say one man's goal is to live 100 years here on earth. Let us divide the entire population of the world into 100 portions. Each year the population of death is reaching more than 36 million. So every year 36 million people will be elevated into the Spirit World. If the 36 million people had ever known the Divine Principle their position in the Spirit World would be entirely different. They would belong to the Kingdom of Heaven. Since they do not know the truth, their destination in most cases is hell. So if we wait 10 years, 360 million people are heading for the dungeon. Think of it, Christianity was the first road runner of the Father's ministry, so think of it, what kind of crime in the sight of God did Christianity commit in the last 30 years. The millions of people that have been blocked from seeing the truth and entering the Kingdom of Heaven. Therefore do you think God can allow Christianity to continue to prosper or will it disintegrate? The destined road for Christianity when they stand against the ultimate truth is that it must decline and decline rapidly. Can you follow the logic? (Yes). Then what about you? You are the ones who will disseminate the truth, so the people can know the truth. If you do

not fulfil the responsibility, what then? Then we are also responsible, are we not? (Yes).

If we fail to fulfil our responsibility and reach out to the people of the world and then these people will die and end up in the Spirit World but not in a good place. How do you think they will feel? They would like to kill you. They will say what happened, why didn't you tell me. Why didn't you do your job to disseminate your heaven? Then they will say, suppose I was not ready, well alright, but at least you should have come to me and told me the news and if I did not accept, then I would accept it as my responsibility. Why didn't you let me know? What would you say? You would have no excuse.

So we have to get rid of the condition of Criticism. So now you can understand clearly why I am determined in America to let every citizen of that land know about the proclamation of the Kingdom of God and the name of the Reverend Sun Myung Moon. Why for the three years must I do this? I want to leave them no excuse.

They cannot say in the Spirit World I did not know that Reverend Moon came to the United States of America. No, they cannot say this. God can say to them – Where were you? Were you in the basement? Do you indeed belong to hell?

So this is realistically what I am doing in America. Whether people accept or not. Each missionary in the mission field is doing the same thing as I am doing in America. You must let that country know. From 1975 on for 3½ years we do have the responsibility to let the entire world citizens know about the great truth. If we successfully complete this mission of proclaiming the Kingdom of Heaven on Earth then we will not be responsible. When we complete this mission successfully, even if the rest of the world is still stubborn and will not listen, not move and accept. Because we will have set the condition of bringing the Kingdom of Heaven God will then be able to judge the world from this position.

So, don't you think we should do it? (Yes). So next year I am sending out missionaries to 120 nations all over the world. So let them go to their respective mission fields. Let them throw the rope of life, all over, in all directions. If there is no rope to throw, you can tear off your own clothes and throw them too. If you have no clothes to throw, you can even use your own skin. Make a rope out of your own skin. That kind of determination. That

kind of fearlessness, do you understand? (Yes!). That is your job, so each one of us is responsible for the restoration on a different level – individual level, family level. You throw the rope. On the tribal level also you throw the rope. National level, throw the rope of life and on the world level you also throw the rope of life. Each level of fulfilment. So no-one can say in this room well at least I know the truth, I know the True Parents. I belong to him, so like the people in the church, I just want to stay here. You cannot do that. When you complete your mission on a family, you swap the rope for the tribal level. When you've completed that mission you swap the rope for the national level and then you swap the rope for the world-wide level. You have to elevate yourself. So you are going to start as the individual, with the restoration of yourself of course first, and then your family, tribe, nation, world, and then you come to the centre of the rope. You have covered the distance from you to the central point. Can you move the central point from one position to another? Can you pull? You have to go there, and you have to pull the rope to your place. You may say, instead of me going there, why doesn't the central rope come to me, and pick me up. Who has to cover that distance? God or you yourself? It is your job, man's job, each one is responsible. So the almighty God would not move one iota the position of the Central Point. God wants everyone to come there. Shall we go? Yes. If your leg were cut off, would you let that slow you down? Or would you still run with one leg? If your eyes fail, so would you feel you should go to the hospital, and stay there for many months. Imagine the urgency of what I am declaring, without even your leg, without your eyes or your arms, still without anything, still you have life and you must go.

Therefore in order to make this emergency quicker and possible for all of us, God is working in a tremendous way, confusing the rest of the world. The rest of the world is like a sea of agony. They have no hope, and are only confused, with this problem, and that problem, they are plagued by the problems and they are desperately trying to find some kind of hope, some kind of life. It is just like the Flood. God has brought this heavenly flood. A flood of history and he has brought it down unto humanity, everybody is about to be drowned. They are searching for the rope and they reach out all over, trying to grab one rope. They are finding that

that rope is the Unification Church rope. We must throw many ropes. So in order to survive they catch the rope and they realise on reaching their destination they find they have come to the real place. This is how the world will end. The world will go in that direction.

So more and more the difficult world is to come. God is doing it to help your mission. When the flood comes there is no order. Mother, Father and family members, and the children, everybody is about to be drowned. They are just trying to put their heads above the water. They are so busy they have no time to think of their wives, there is no time to think of their Parents. Students don't have time to think of their professor and their professor does not have the time to think of their students. This is how it is going to be. So actually those who really are strong and are really determined to put their heads above the water will survive.

Who are the young people? Young people have more energy and vitality, therefore they are able to put their heads up above the water, but they are floating down in the meantime, and they see the rope and grab. The hippy movement they thought was the way of life. They thought that it is the way they can bring Utopia. So they are disillusioned and have not found an answer there. Still while they are trying they see the main rope and when they grab the rope, they see the Unification Church, so we have a young people's movement. There are many in America and also here I am sure. At one time they see some hope in being a hippy, trying all kinds of drugs so that is why young people are coming here. Young people. When we bring the young people in they are all ready to drown or die, so we have to revive them. It is like giving a drowning man artificial respiration to start him breathing anew, a new healthy approach to life. So the Unification Church is the system of giving revivals, a breathing movement. Is this analogy realistic? (Yes). Our chances are great, when you quickly throw the net and the rope as much as we can. How do you feel? Do you have to witness? Yes. This is an edict? Truly? (Yes!).

Think of it, how God is at every moment busy and how our Father feels every moment of the day. Urgent. Urgent. So you who come here to see this urgency say, well wait, just wait and Father, just wait, give me a little more time. Can you say 'Oh this is not my way. My way is doing this way. I'm

doing it slowly, I'm doing it in ample time. Let me think about it first.' When God is looking at you, with that attitude. He almost is so irritated, that sometimes God has more wrath towards you to see the undoing members of our Church than the people outside. It is useless to come to this important urgent time, to his camp as a champion, and that champion does not produce. How good is that champion to God? Nowadays there are many movies, what they call spectaculars, with all kinds of disasters in movie films. When I see them, and how people struggle to survive, trying to find one rope, one hold by which they can try and get out of that desperate position, my heart aches. I feel that this world is just like that. So I know you have a clear concept now.

You know now what God's position is, what the True Parents' position is and what position the world is in. Then when you know these, then you know I should do what you should do. If there was no Father, who will take care of this world? Also do you think I will live here on earth for a thousand years? I am planning the global strategy for the next 15 years. Just think of it, in 15 years I have to deal with this entire world, this jungle.

It is more logical, by knowing this urgency. Yes this world deserves to go to despair, so for 30 years our Movement has been postponed because of simply rejecting me when I first declared the message. Korea deserves the penalty. That nation must suffer. Christianity all over the world deserves to decline because they did not accept. This world has to suffer, because this world has not known early enough. I feel so realistically we are holding the handle of the destiny of the world actually if I feel the feeling of revenge towards those enemies, then nothing deserves to survive. Korea must be destroyed. Christianity must be shattered into pieces. This world must be destroyed, but God does not feel that way. We must even have compassion over our enemy. We must pray for our enemy and we will ultimately save even our enemy to salvation. So we must bring great power, great organization, great success, so that these enemies may see where we are and how wrong they were so that they can repent. This is our duty. Also whatever path you walked in the past doesn't matter, what matters is the present. What you are now is the matter. What you will be is the matter. So those who do the most critical work at this junction of human history will be heroes.

Let us summarise, we know the central truth, so we know our distance from the central point.

We know what position we have to pass through, from servant to servant, from servant to adopted son position to son position, son position to True Parents position regardless of whatever sacrifice we have to pay. We are required to pay and be so willing that we are bubbling with enthusiasm. This is the Unification Church now here and all over.

Family level, the foundation is laid, tribal level the foundation is also laid, national level is also laid. The world-wide level, that one central point, for the world dispensation that belongs to the third seven year course. This is where we are. The entire world is in our hands. So after the completion of the eight city tour in the U.S.A. I will go back to Korea, and when I come back from Korea now I know I will elevate our Movement above the national level. We have done the duty for national level, now we are entering the era for international crusade, world-wide movement. Quick, shortened period, so let us really assault this world from all different angles and really bring the world to the ultimate victory. Once we have the world all the rest of the lower echelon belong to the world. Nations belong to the world, society belongs to the world, families belong to the world, so when you have the top of the world you have everything. All you have to do is crank up the winch and bring in the entire globe. One world is lifted up into higher dimension of existence. Now can you summarize this morning, consider the teaching of the Divine Principle. The whole spectrum of the Principle has been made clear. Is that true? (Yes).

Up to this central point, who is going to conquer the distance? You, I, we to do it, without dying. You cannot afford to die at this moment. You must live. You must absolute strong commitment, and no-one can compete with your dedication and commitment. Your strong iron will. So hold onto that rope, hold on and even bring your rope around your body, around your neck, and stay there, keep it, then heavenly winch or crane will crank you up.

This is your way of paying indemnity. I walked a 21 year period; the distance I covered in 21 years you can cover in the final 7 years. Everyone will not be worthy to stand in the sight of God unless you really successfully cover this 7 year course, at least. For 7 years you should go

down to the bottom of hell and revive or resurrect. You pass through the hell and come up to the heaven.

On Restoration along the way, we must pass through the hell in order to come up. Do you understand? You must go down. Satan is covering and holding that ground of hell, so we must win over the Satanic realm and come up as a victor. So our attitude must be, come, crawl, if you want me to bear the cross, I will be willing. If you bear the burden of any kind, any tribulation, any suffering, I don't mind, let it come. I will face it and I will not be destroyed by it. I will destroy them. This is the most important statement in our Movement. For us no such a thing as death exists, because even death is a victory. How can you ever expect any greater victory than conquering over death. So actually the shortest cut is to get there by dying for it. This is the shortest and quickest way. So you read the Bible in which, over 2000 years ago, he told his disciples, go die, bear the cross. It's really a ruthless statement, but it is the true statement of love, but they did not want to die, they did not want to go to the bottom of hell, dungeon, they just wanted to go the quick, nice and easy way. There is no easy way. Therefore they failed and they were so lay that instead of bringing themselves to the central point, they wanted God to come and bring the pick-up truck, and pick them up one by one. Now in Great Britain, whatever great difficulty you have, break through it, in France and Italy, maybe the Communist threat perhaps in Italy may be the greatest problem, yet you must break through. In Europe, in Germany, whatever the greatest burden, or threat and difficulty we face, we must be determined to break through. So time is limited, furthermore we don't have enough soldiers, so what can you do? You must do double time, triple time, quadruple time to cover this emergency.

I want you to understand that every time I come I really stress and push you out to do the work, and even to the point of death. I want you to know that this message is coming from love, because without pushing you that harsh way, I have no other way to bring you to Heaven. You have to pass through that hell. Can you understand my position? (Yes). We have a common destiny. We live not an individual destiny, but one destiny, and that common destiny is not your destiny, but God's destiny and Father's destiny and your destiny and all three are going together. God, True Parents, you

(3 in one rope), going together, the same way. What makes you stay with True Parents and Heavenly Father? Not the rope but your feeling, the same parallel feeling, heart of the True Parents. You must feel as the Heavenly Father feels, you must feel how the True Parents feel, then you are staying there now.

God's mind, the True Parents and you, all 3, echo each other, vibrate together, tremble with each other. The victory is our goal, and God is saying urgent, True Parents say urgent, and you must be saying urgent, for victory. Before the victory unless you become one with the True Parents, feel the same way He does, the same way God does, you will not celebrate the victory after the victory. Can you feel it? (Yes). Do exactly as I told you, then you will know God's presence with you. You know I am with you, and when you open your eyes, then you see that God is twirling together, you see there that the True Parents are twirling with you side by side, when you open your spiritual eyes. So when you come closer to the Central Point this intensity will increase. A more intensified feeling will come to you. Understand? (Yes). Now you know plainly of the Father, so after knowing this much, if you still fail to go to the destination, and later say to me well Father why didn't you tell me more clearly, do I deserve that statement? (No). You answered. You are fortunate people. You are great, not because you yourself are great but because you belong to the greatest, so that greatness will bring you up to the position of the blessing of true sons and daughters. You shall become His son and His daughter. Understand? (Yes). Heart is right there, you meet in heart. Your action will follow your mind, so be determined, and make up your mind, and then your body will follow. The main thing is your state of mind. So we are in the battle, the divine war, and we are the front line soldiers. You know God is all the way to the front. The front line soldier is the nearest point to God. God is not sitting back in headquarters. He is right up with the front line soldier, and you are. So it's worth doing it, right? (Yes).

You must shake this world and Great Britain, you must shake this country, and everyone on the outside will be talking about it day and night, saying what is going on there. All stirred by the Unification Church. France, Germany, the entire Europe, let them every moment of the day talk about the Unification Church, and if they criticize,

even they defend, I don't care what the topic is, let them talk about us. Let them accept or not accept, let them decide. Our job is to let them know. This is the exodus in a world-wide level. Moses brought the Israelite people out of Egypt, and they were wandering in the wilderness for 40 years. This is a world-wide 40 year time in the wilderness. The world is passing through the wilderness, and only one knows the direction and goal, and the Unification Church is the Moses of our time.

If Moses failed to tell the people where to go, how they should act, then he is not fulfilling his mission, by the same token unless we tell the world where Canaan is, where the blessed land is, and what is the goal, then we are failing our mission. You know, and you know it clearly. (Yes). If you don't follow this road, you and I, and the Father, then God and you have nothing to do with each other.

You just simply cannot doubt. You now act and bring yourself perfection.

Dennis you have a job to transcribe today's message. I am not addressing this just to the European family, but to the world. Bring this message and bring it nicely printed, and send it all over the world — America, etc, particularly America. I never talked in this specific fashion in America. Why do I come to London to do this, because you are lucky. (Clapping). Secondly — Great Britain gave birth to America, so you are in elder brother's position in a way the Cain and Abel position, so I come to declare in elder brother's country first.

So, all right Dennis, you fulfil that Mission. So, I don't have to repeat this message, by this transcription they well know what I have declared here, but you are lucky, because you are the only group to listen to Father in person.

I want to make November 25, 1974, London message to be historically recorded and known all over the world. It is also the victory celebration side by side with the completion of the Science Conference. So you get the message first and you had the priority this morning, so you must bear the fruit first, right? (Yes). If you do and practise this message faster than anybody else in the world, then you are going to lead the world. In Great Britain, with its former great empire, this is almost like the sun that is going down, by accepting and doing this message we can go faster and revive a great heavenly empire here. I will also allow the free world

competition here, maybe German brothers here, and German leaders here. I know they think in their hearts, no, not Great Britain, we Germans will move shape of Europe. Let them do it. Then French brothers will say, no wait a minute, we French will get the first chance. We French have a great hero in Napoleon, and we want to become heavenly Napoleons. However on the other hand the Italian brothers will not be quiet, they will say what is he talking about. European tradition is Roman tradition and we had a Caesar once upon a time, and we created a heavenly Caesar, and we Romans are going to declare the message all over Europe.

Competition is on, so do it. (Yes, yes). So defeat Great Britain. (Never).

Let us Pray – Colonel Pak.

Our Loving Heavenly Father, we are deeply grateful to receive this beautiful message most historical message, extraordinary message from our True Parents. Father, the message we heard has never been spoken anywhere in the world in all history. This message will be known to the world in the future of posterity as the message of True Parents, of Heaven and earth on November 25, 1974 in London.

Further we just completed this historical moment; Father you allowed our True Parents to come to London because there is dispensational reason. London is the city of Europe, Great Empire of this country, and has been really the Leader of the World History in the past. Father also this country has done the major role in giving birth to the youngest nation of America. The greater dispensation is unfolding in America, the whole 200 million people in America have heard the Reverend Sun Myung Moon and the declaration of the Kingdom of Heaven on Earth. Father now we are moving into a new phase. That new phase is the international crusade. The global crusade. The world crusade. Father we have a mandate today, the next three and a half years. We are to bring the message all over the world. Just as all America heard the message that all the world citizens must hear the message in the next 3½ years. This is our challenge, Father, and we accept the challenge and we meet the challenge. We will bring the glory, we will never let you down. Father, your expectation will be fulfilled. Father, we pledge today our lives, sweat,

labour, our soul, whatever, in order to meet this goal (dead line). Father trust us, trust us, we will do and fulfil so we will not have any future criticism by not letting the world know the message. We will be completely free and furthermore our job and Father desires to bring even the enemy to salvation, even though Korean Christianity has failed, though the Nation of Korea has failed. Now the world over Christianity is still taking the opposite role but Father we heard the message, they are still in an opposite camp, yet Father you do not feel revenge to them, rather you feel compassion to them, you have mercy upon them, and are sending us to bring them all back into the Kingdom of God.

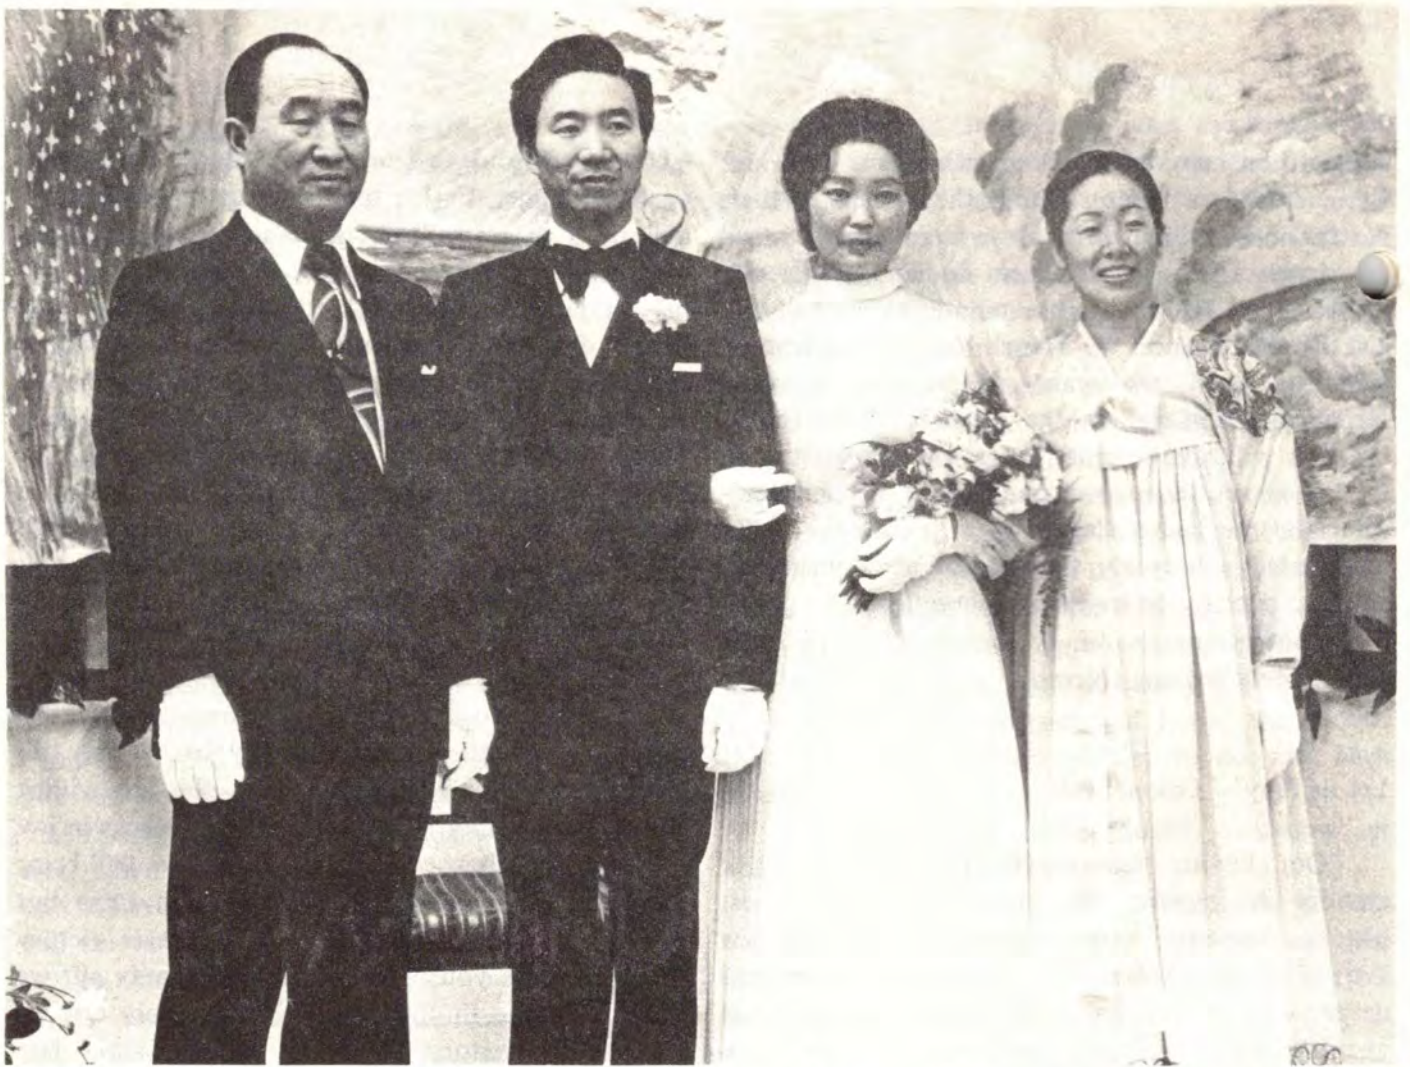

We will do it. Father in the meantime I know you expect us to bear the cross, extraordinary cross, super cross. Father we are worthy of bearing this cross, and we will like to do it. We are willing whatever the cross is. We shall bear, and bear in joy and with bubbling enthusiasm. Father we will bring the victory. We will never settle for anything but victory. We will only settle with ultimate victory and Victory is your Glory. Father our only gift we bring upon the throne of God is the victory and we promise this victory to you on this important day.

Father, thank you very much for the most meaningful, historical gathering here in this room. In this small room the history of the world has been made.

Father this day and this gathering is known to the world as the most important moment, and marking point, to lift our entire Movement into a higher echelon. Higher dimension. Thank you very much, we now bear your heart in our heart. We would like to have our hearts meet with your heart. There is only one heart we breathe, that is Heavenly Father's True Parents' and ourselves. Thank you very much, Father.

All these things we pray in the name of The True Parents.

Amen.

Historic Blessing in England
