

Restore the female pattern of the three generations

Sun Myung Moon

Jesus wanted to indemnify the pain of God, who had much grief at the time Eve was lost. Jesus came to restore that situation, centering upon Mary, but it was not completed. God lost the women of three generations-grandmother, mother, and spouse. If those three generations of women are not restored, then there can be no children who are truly united as Cain and Abel under True Parents. Therefore it is necessary to have three women in that position pay indemnity. (35-176) ("Change of Blood Lineage" October 13, 1970 Seoul, Korea)

God lost three generations of women. Therefore, unless we can restore the female pattern of the three generations, we will not be able to welcome children who are true husband and wife, children who are united as Cain and Abel. We need such indemnity women. I also decided to go to North Korea with these guidelines in mind, and then I returned to North Korea. The reason why I brought the three women with me was to make indemnity for the mistakes made by the women of the three eras. (True Parents' Life Course 2 "Chapter 2 Liberation of Korea and the Departure of Providence")

In the era of restoration, restoration is not possible with a legal wife. It has to be done through a concubine. A legal wife cannot reverse this situation and move up the ranks. (The teacher makes a gesture with her right hand) Another woman passes by. do you understand? If Jesus comes, he will choose another mother. He does not accept the wife he lived with as his legal wife. Grandmothers, mothers, and the third generation must connect. There is such a formula. You can't make it haphazard. ("Let's find our true self" December 19, 1993, Jeju Training Center, South Korea)

The one who was to become the True Mother had to be from a family with three generations of only daughters. From her youth, Mother grew up as an only daughter, alone and without getting any help from others. The reason God made her an only daughter was to prevent Satan's lineage from remaining. Mother's mother was also an only daughter, and her mother too was an only daughter. Three generations were involved, and Mother had to go through trials spanning these three generations. (195-147) ("The life of a loyal vassal" November 7, 1989 Wonjeon Paju Korea)

Jesus, who was born from the womb of Mary, was born after changing the lineage of Satan's world. Isn't that so? Although I have come to a position where my lineage has been changed, the bride who will become Jesus' partner has not gone through the process of changing my lineage. Do you know what I'm talking about? That's why it's complicated. Here, a mother becomes a daughter and a daughter becomes a mother, something that has to turn upside down. It is said that the creation of heaven and earth will occur. In the world of women, mothers must become daughters, and daughters must become mothers. You can't do it alone. Unless God and Adam work together as one, it will not be possible to turn this around. Who should assist in that? Maria should assist. A mother must become a daughter and her daughter must become a mother. She should have become a mother who understands this as an age-old tradition and a whole set of customs, but she was unable to become that kind of mother. You don't know about that, do you? The reason why I was able to do this today is because I rebuilt all of those things. That's why I brought True mother in as well. (140-149) (The Blessed Ones February 9, 1986 Korea Headquarters Church)

First, he created Eve through Adam. It says that Eve was created through Adam. Therefore, True Father creates True Mother. It's a re-creation. No one knows the fact that her teacher has taught her everything since she was a 17-year-old girl. (310-292) (Let's follow the traditions of True Parents July 27, 1999)
