Our Master Continues His World Tour

(After seeing many dignitaries including ex-president Eisenhower)

Our Master started His world tour on January 28, 1965 from Seoul, Korea. He blessed many Sacred Ground sites in Japan, and spent His birthday with our Japanese families in Tokyo. On February 12 He left for the United States; for San Francisco, California. On April 2, He observed the meaningful "Parent's Day" with foreign families in Washington, D.C. He visited each chapel and center and the three missionary headquarters; San Francisco, California; Washington, D.C. and Portland, Oregon. Altogether, 55 Sacred Ground sites were blessed as God's Holy Sites in the United States. This heavenly ceremony is the first event since the fall of man in the Restoration Providence Course. Thus, our Heavenly family have noticed His Work and His Lordship over the world and the universe. He made strong ground for us to follow and fight against Satan and win the victory over Satan.

After He returned to Washington, D.C., He spent three months fulfilling many significant things for this nation, for our future work and for the world. He also observed "The Day of All Things" with the American families in Washington, D.C. He instructed His followers to set up "more than 12 foreign missionary headquarters other than the United States within this year of 1965". Along this line, we must work hard not to miss the heavenly blessed chance to restore the foreign lands to Master; to "His Coming Kingdom" or "The Kingdom of Our Master". For 3 months He, Himself, participated in many programs in re-training the American workers in preparation to send several missionaries to Europe, Japan, the Middle East, Latin America, Australia, and other nations.

After setting up a strong foot-hold for our family, and before His departure for His continuing world tour, He shared His precious time for one hour with ex-president Eisenhower at Mr. Eisenhower's Gettysburg home. This interview was held on June 25, which was the anniversary of the Korean War.

Our Master discussed with Mr. Eisenhower crucial subjects such as:

1. "How to conquer the world prevailing communism?"
It is possible only by the ideological superiority, not by force or weapon, Master emphasized.
2. "The problems of young peoples moral corruption."
This can be solved by this Movement of loving our Heavenly Father (God).
3. The mission of the United States as a leader of the nations can be fulfilled successfully by unifying all religions to One, and make a united front line to fight against Communism. If this nation fails, there will be severe internal conflicts and religious wars shall emerge leading Communism to victory over the whole world.

Our Master especially emphasized in the interview with ex-President Eisenhower that "Our United Faith Movement" led by Him has all the answers and He asked Mr. Eisenhower to cooperate with Our Movement which is marching on a world-wide scale. He showed much evidence and scrap books to Mr. Eisenhower on the Holy Marriage of the 124 young couples and of other significant activities over a period of 12 years in Seoul, Korea. Mr. Eisenhower, who is very much impressed with Our Master, promised to cooperate with our Master's work and this movement. Thus, the King of kings and a worldly king, (ex-president of the United States) had a significant interview which lasted one hour at Gettysburg on June 25. Now Our Master is continuing His world tour.

Portland, Oregon

Following is a report by Mrs. Esther Carroll on her Forty-Day Campaign:

1. Mrs. Esther Carroll and daughter, Linda, left Portland July 3. First stop was Boise, Idaho. We had a good time of fellowship with Vernon Pearson. Sunday morning we attended a church meeting. Some contacts were made in which Vernon will follow up.

Our next stop was Salt Lake City, Utah. Three days were spent there doing Our Master's business. Every family who had been contacted in the Principles in the past were again contacted. Several had been discouraged and had given up study of the Divine Principles. Many of their fears and misunderstandings were cleared. Our prayer is that they will, in time, again begin working in our United Faith. One thing of interest is the fact that although they had given up active interest they knew they had gained much and agreed as they continued to grow in their faith in God that perhaps they would gain deeper understanding of the Divine Principles.

Mr. and Mrs. George Gaisford, although they do not want to become active workers in our United Faith, still want to stay in our work. They have a desire to keep their home open to our families and want to keep receiving the bulletins.

Let us all pray for the Salt Lake City families. They were left to stand alone before they were mature enough to be weaned from the mother's breast.

One thing of interest, I met a young man who became very interested in the Divine Principles. It was pointed out that regardless of background, etc., still the Principles would be a unifying force for all mankind. He plans to move to San Francisco by September, so the address of Mr. and Mrs. Jim Fleming was given to him. He apparently was very interested because he had written to San Francisco before we arrived there. Let us remember this young man in our prayers.

We left Salt Lake City noon on Wednesday, July 7, and arrived in Los Angeles, California early Thursday morning. Three days were spent with Mr. and Mrs. John Pinkerton and all the family at their center.

The three days spent there were of great blessing to us. Several new members are earnestly studying and are very anxious to grow quickly in the Divine Principles. A meeting was held Thursday evening at which were some new comers.

Friday evening was spent witnessing and making new contacts. At the Saturday night meeting, we were thrilled to see the new comers at the Thursday night meeting attending again. Also, we were pleased to see some Friday night contacts at this meeting.

A large group attended the meeting so John Pinkerton divided them into groups according to their stage of learning. Much instruction was given and we feel certain that some seeds are beginning to grow.

We felt a great deal of love and harmony and sensed a tying together of bonds between the Southwest and Northwest families. It was a very great blessing to meet our California families for the first time.

We left for the Bay area, but first spent some time in Fresno visiting relatives and friends. There was no time to follow up any contacts in that area.

I arrived in Burlingame, California Monday evening, and three days were spent in the Bay area visiting for the first time all our families in that area; Berkeley, San Francisco and Oakland. It was a time of getting acquainted and a wonderful time of fellowship. We met again our Northwest missionary, Mr. David Kim, who is staying in Berkeley with Mr. Edwin Ang. Our California families have been enjoying the blessing and fellowship with Mr. David Kim.

Before leaving for the Portland area Thursday morning, all families gathered at the Berkeley center and we had a time of fellowship and discussion. We saw for the first time, many slides and pictures of our Master during His stay in that area. It was so very apparent the same love and devotion for Our Master that each one of us felt. This common bond alone could have been enough to tie our families together.

A family in San Jose who lived in the Northwest area at one time was visited. We went into great depths on many points of our Principles and the woman is very eager to meet Mr. and Mrs. Fleming and to learn more and to also take the correspondance course. Pray for this family.

After arriving home late Thursday night, a short trip was taken to Castle Rock, Washington on Friday, and another quick trip to Seattle, Washington over the weekend. These two short trips concluded this part of the Forty-Day campaign for the Portland family. The complete two weeks campaign covered 3,400 miles. Now we must begin to concentrate our efforts in another channel. Our prayer is that many seeds will be sown in preparation for a large harvest of souls.

Seattle, Washington

The Seattle twins, Misses Dianne and Susanne Pitts, left for Alaska on June 25 and arrived back in Seattle on July 11.

This was the first trip for them after coming into the Divine Principles. They spent some time in Juneau and Anchorage.

A contact was made whose home is originally in Chicago, Illinois. This young man may possibly be coming to Seattle this fall, and if so he will come to a meeting and be given deeper training in the Principles. Let us pray for his continual interest along this line.

Congratulations to Mr. David Kim from the San Francisco Family!

Following are excerpts from the June 15 issue of the New Age Frontiers:

"On behalf of all members in this country and throughout the world, we would like to extend heartiest congratulations to Mr. David Kim, one of our three beloved Korean missionaries, upon the completion of his studies for Master's Degree in Psychological Counselling at the University of Oregon."

WHO CARES?

The following is a translation of the relay essay by Mrs. Chungji Hall which appeared in the July issue of the Sung Wha Monthly:

How grateful I am to at last have the opportunity to send greetings and my love to my Heavenly Family in Korea. I long for the day that I can walk among you and greet you in person.

Receiving this baton gives me an opportunity to reflect upon God's miracle in placing me in the right place at the right time 3 years ago this month so that I could meet His messenger, now my beloved sister in this faith, Mrs. Eileen Welch. Through the love from God that she brought, I have after years of seeking, found His love and the faith and hope to live each day for Him. I found from experience that to live for the material things of life or even for our families that we love, leaves only emptiness and a longing for the love that can come only from our Heavenly Father. With this Divine Love comes responsibility. This is the responsibility to give this love to mankind.

To most of mankind, life is only a day to day existence. Our young people are losing hope for their future at a very young age. They are pushed into society unprepared by parents desiring their children to be socially accepted by the world's standards, but completely disregarding God's standards. They may struggle and seek love and happiness for a time, but give up in despair when their efforts only bring temporary happiness. They do not realize that real love only comes from God, and that they are seeking from the world something the world cannot give. With disillusionment comes resentment - many times resentment towards God. A young woman once said to me "Where was God when I needed Him? Why did He let me down?" I could not help asking her if God had let her down or if she had let Him down. She is a young woman that spiritually knows that Our Lord is on

earth and that God is restoring mankind. But she felt she would have to give up the things of the world to follow Him. So I ask you, did God fail her or did she fail Him? Her rejection has brought alcoholism and desperation into her life. This is what her love of the things of the world brought to her when she could have had Divine Love from our Heavenly Father.

Jesus of Nazareth said, "Seek ye first the Kingdom of God and all these things shall be added". In seeking the Kingdom of God FIRST, the desire for the things of the world pass away in the joy of experiencing His love. The material things we then receive are a joy and comfort as they come as a gift from God instead of from our efforts to possess them.

There are many who have given up in desperation. They lose their ideals because they feel they are fighting alone against the world, and take the attitude that "WHO CARES?" But there are some people that are still seeking something better than the worldly way. We can either bury our heads like an ostrich and say "WHO CARES?", or we can fight God's enemy and ours and endeavor to give to suffering mankind the faith, hope and love God has so mercifully given to each of us.
