

WE CAN STAMP OUT PORNOGRAPHY!

What is pornography doing to America?

America is being ravaged by sex and pornography. Pornography attacks especially our youth and pervades so many of our movies, magazines and books. Because pornography has become so widespread is a major reason why immorality is America's most serious crisis.

Who's behind it?

The people who publish or sell pornography are worse than drug pushers, because their poison kills more than the body, but the God-given spirit. 90% of these filth peddlers are connected to organized crime and their only thirst is for squeezing more money out of innocent people. Money is their god and they couldn't care less about the victims of their vile activities.

What can we do about it?

The laws regarding pornography are strong enough to stamp out smut from New York. The 1973 U.S. Supreme Court obscenity rulings are enough to do the job. All we have to do is ask for vigorous enforcement of existing laws. We must take a stand.

We ARE doing something about pornography. Please join us!

Everyone is asking, "Where can I see a good movie!"

So many of the movies around today only reflect a lack of hope and love that exists in our society. If America is to have a brighter future, she must rise above the decadence and despair to which we are subjected everyday.
