

## Honoring True Parents 50 Years in America

Michael Balcomb  
September 1, 2015

As part of the celebrations surrounding the successful Third Anniversary of True Father's Seonghwa, the United States and other continents were very pleased to present True Parents with commemorative gifts. Some nations chose to honor True Parents with a work of art or sculpture representing their cultures and traditions; others offered a memento or souvenir of a precious and historical time with True Parents.

This year, the American movement decided to honor True Parents remarkable record of public speaking in the US. Over a fifty-year period, 1965-2015, Father, Mother and their family spoke in all 50 states and several hundred cities, more than 575 times in all.

We presented True Mother a beautiful picture/graphic in honor of this mighty effort, and she was kind enough to sign some smaller copies for us as well. We plan to give every participant at the upcoming world leaders' assembly a souvenir copy.
