7. a TESTIMONIES

This ancestors liberation ceremony is my second ceremony that I attended. Both occasions were moving, but this time, I could get deeper understanding and seemed much more realistic. I could even feel my ancestors more closely. **When we were praying,** I was visited by 2 high level spiritual figures (Jesus and True Father) **Jesus appeared twice and True Father appeared 3 times,** and both of the visits were very quick and looked they were very busy. I also had a very long conversation with those collaterals I liberated this time, but I did not see them, only mental conversations. In general, I felt deeply touched by the absolute energy we received from our lecturer brothers and by all hands that touched my body. I felt very strong when Dr. Balcomb touched my head, thank you very much to all of brothers and sisters who made this event possible. Hope I will get healed more quickly after this ceremony. **I give all my gratitude and love to Heavenly Parent and True Parents for bringing to us so close the restoration.** Thank you!

7. b TESTIMONIES

I was not able to attend in Madrid the CbeonBo event but my wife Yasuko and my son Kyung Min where able to attend and give the **Holy Blessing to my ancestors**, my father and mother side. I did attended the ceremony at the same time scheduled in my home with the holy candle and my parents pictures. **The experience was one of the great joy and happiness in heaven and for all my ancestors.** Feeling their presence during the ceremony and their happiness and gratitude. Thank you very much for bringing this great providence to our beloved country of Spain. **Our people will be eternally grateful to Our beloved True Parents.** We pray as well for you and your family fortune.

Antonio Fernandez

7. c TESTIMONIES

I am from Barcelona, I came to participate this event because of my gratitude towards True Parents, even though I felt doubt about the existence of spirit world...**during the ceremony of ancestors blessing** when the leaders cut the cakes, **I felt someone softly touched my shoulder, and I turned my head to see, but nobody was behind of me.** It was very spookish, **I got confirmation that our ancestors are with us.**

7. d TESTIMONIES

This is the second Cheonbo event that I have attended in Europe. I have to say that both are very different. Listening to the lecture today from Rev. Krebsz gave me a new understanding of the value of Chanyang sessions. Some bad habits are very ingrained in me and I need to participate more often. Rev. Krebsz is updating and adding fresh insights to his lectures. Rev. Moon said that this is the real Cheongpyeong experience. Several small incidents happened to me on the first day making me very aware of the reality of the spirit world. ... My wife and I have the added grace and privilege of blessing all 430 couples of my ancestors. I really liked Dr Balcomb analogy with the marathon race. We are at the end of the race and some are beginning. We should never give up just keep going. Thank you Heavenly Parent and True Parents and all Cheonbo team

Sincerely John K Ireland
