7. a TESTIMONIES

Dear True Mother, I want to thank you for your sacrifice and for what You did in this time for me and how much love and filial piety You had towards Heavenly Parents and how much you have supported True Father in Your life with great sacrifices.

I want to thank you especially because **in this Chanyang Session I could experience healing since I had troubles walking. Now I can run!** Thank you for your love and guidance, even on behalf of my ancestors. I want to greet You with all my heart and promise You that I go on the road that You and True Father went by shedding your blood, sweat and tears. With Love,

Alberto and Gerlinde Pugnoli, Milan, Italy

7. b TESTIMONIES

The first day when we started the **Chanyang Yeoksa session**, **I saw** a lot of people together, they were cheering and very happy. They were congratulating me and were really cheerful. Then, I felt a very strong energy, very warm, fatherly energy, supporting love coming like a wave towards me. **I felt a deeper connection with God's Heart.** I am sure this energy was God, it was really powerful. Then, I saw people making lines one after another, with space between them. Suddenly this space was filled up with spouses. A huge amount of people, husbands and wives. Then, something else appeared. Many people who were dark, pitch black and kind of dirty, not in good shape, twisted, moving slowly, you couldn't recognise them. Then a light came, coming horizontally. It was more than light, it was bright energy. This energy came from behind me, went through me and through those dark people. From my chest the light went through them and their black cover which was like a shell around them also disappeared completely, like breaking down, one by one. What remained inside only white people, people with light, bright radiating light. This energy was going in this direction, from me to them. But, as **I turned around a bit, behind me there were True Parents. This light was coming from True Parents towards me, going through me and reaching those people. And, I looked further and even more behind True Parents, there was the source of this light, and I think it was God, the Light, the origin of everything.**

7. c TESTIMONIES

On Saturday, I was the main vocal the last part, and **I really felt the heart of God** telling me I was not alone. In fact, a lot of people have spiritual experiences during the Chanyang Yeoksa. Even though I am a child of God, I still have my 5% of work to do to reach perfection. However, I still have to work for it, because if not, then no one can do it. During the first part of the Chanyang Yeoksa session, I cried a lot while singing and clapping. It was strange and I felt free at the same time because I usually don't cry in those kinds of situation, but I also wanted to express my gratitude towards True Parents.

The first time I was a main during the CheonBo event, I had to study for a lot of exams. I prayed about it, and got great grades months after. To conclude, I really wanted to say that even though we may be “unavailable”, **we must take at least some portion of our time, while living here on earth, to live for the sake of others, True Parents and God.** This experience made me realize God is with us even when we think He isn't. We must make room to welcome him in our hearts, minds and souls. If not, he cannot help us.
