

## We are very pleased to announce that DONE 2019 has successfully concluded

Michael Balcomb  
December 29, 2019

We are very pleased to announce that DONE 2019 has successfully concluded.

We want to congratulate the Graduates once again for all their effort and achievements and thank everyone who was involved in supporting and contributing.

Every year, the group is different and the experience created is special and unique. This year we had participants and staff from Europe, America, Canada, New Zealand and Korea. Despite only being together for just over 2 months, many participants shared the renewed hope and confidence they had found in themselves and for their future. As a community of Blessed Children, we were reminded of our potential, linked to our identity, our roots and our purpose in life.

We thank all graduates for investing into their growth and spiritual life, and their commitment into growing a deeper relationship with God and True Parents.

We also want to give a special thanks to all the educators, team leaders and other supporting staff who accompanied the participants and contributed to this significant experience for their lives.

Finally, on behalf of all of us as staff, we want to thank all of our friends, family members and wider connections, who supported the programme and the participants throughout these past months.

We look forward to continuing our journey together on DONE Mission One in Spring 2020.

We wish you all a Merry Christmas and a meaningful end to the year.

The ESGD team
